# The Bow Valley Call

*Devoted to the Up-Building of Gleichen and the Development of the District Generally*

Year VI., No. 30. GLEICHEN, ALBERTA, THURSDAY, OCTOBER 10, 1912. $1.50 Per Year

## QUEENSTOWN FARMERS AGITATE FOR BRIDGE

Queenstown is a very busy part of the province these days and the roar of the thresher can be heard from early morn till late at night. East of the lake, the big steam outfit belonging to A. Begg is making things fly along the Reserve, further east along the same line, the small steam rig of Scott & Godkins tears away at the heavy crops. A little farther south can be found P. Mell and the Gordon boys' gasoline rigs, while close to the lake, Mr. Kuhn does great things with his "oil pull." Still further south is a new gasoline outfit belonging to Mr Dietz. On the west side of the lake Messrs. Jackson; Johnson, Island and others are doing the threshing. The grain appears to be fine all over the district and yields of from 30 to 45 bushel are reported on new breaking and summer fallow, while stubble grain runs all the way from 15 to 25 bushel per acre.

A number of former Queenstown residents and people who are still owners, but who rent out their farms, have arrived at Queenstown to look over the big crops and watch their interests. Among those now here are S. Morgan, who owns Section 3,19,21, and has it all in wheat. Mr. Lorentz Irvine, who owns the farm right east of the Morgan section, has also returned from the state of Washington to find his crops excellent.

Mr Ike Jordan has rented the Allen half-section on 21,19,21, and is busy plowing it up.

All farmers who have been lucky enough to get their crops threshed are now trying to get some plowing done before the freeze up.

The potato crop is fine and great yields are reported in Queenstown this year.

Mrs. Geo. Horle returned home Monday from a Calgary hospital where she has been treated ever since she was hurt by jumping out of a democrat a few weeks ago.

During the rush hours on the ferry last Monday, Joe McCabe' horses backed off the ferry with a wagon load of wheat, all of which was completely lost in the river. It is a wonder that more accidents of this kind do not occur when one considers the amount of trafficing across there all the time.

This ferry business is the greatest draw-back the Queenstown farmers have to put up with and it is a pity and a shame that the provincial government keeps on ignoring the just demands of these farmers for a bridge at that point. A year ago the Queenstown men sent in a monster petition for a bridge. The government replied that there would soon be a railroad south of the Bow. Again last spring the secretary of the farmer's Union was instructed to write the Minister of Public Affairs drawing his attention to the fact that there was not the least sign of any railroad coming through here for some time and that the traffic across the ferry was rapidly increasing. This letter was entirely ignored. But I will bet a dollar to a doughnut if the Minister of Public Affairs had to haul one single load of grain to Gleichen from Queenstown and was delayed a couple of hours coming and returning at the ferry, there would soon be a bridge. The grain hauling has scarcely commenced, and yet between the hours of 9 a. m. and 2 p. m. there is a block at the ferry of from 25 to 50 teams waiting their turn to cross. The ferry was all right when Queenstown was a ranching district or only sparsely settled, but today, with a big settlement and an enormous amount of grain to be hauled out, it is utterly out of date and should be thrown on the scrap pile and a modern bridge allowed to take its place.

JOHN GLAMBECK.

## 42,000 BU. GRAIN SOLD SO FAR

So far this season the Gleichen elevators have handled about 42,300 bushels of grain. Of this there were 34,000 bushels of wheat, 7,100 bushels of oats, 1,500 bushels of barley and 300 bushels of flax. Twenty-six carloads of this grain has already been shipped from Gleichen, and there are now on order 20 cars, besides about five for Stobart, for the elevators and individual shippers.

The Call reporter made the rounds of the elevators yesterday and had a pleasant interview with each of the local managers.

At the Imperial R. S. Higgins said he had taken in 20,000 bushels of wheat that averaged grade No. 2. Of oats he had received 5,000 bushels grading No. 1, and so far had no No. 2. He had no barley, but took in 300 bushels of No. 1 flax. The shipments from his elevator were 12 cars of wheat and one of oats.

H. L. Carew at the Sunny Belt stated he had 10,000 bushels of wheat at an average grade of No. 2, 1,000 of barley averaged No. 4 milling, and 300 bushels of good oats but he could not state an average. He had shipped one car of oats and seven of wheat. He said he expected some feed wheat would come in and he feared from now on the average might go down to No. 3. So far there was no car shortage but cars had not been coming in as they should, and it was his opinion all who want cars should order them early and look after their delivery diligently.

At the Alberta Pacific, A. L. Magner, said he had just got started but had purchased 4,300 bushels of wheat with an average of about No. 3, 400 oats averaging extra No. 1 feed and 500 of No. 3 barley. He shipped one car of No. 1 Northern and one of No. 5 Northern.

S. D. Curran the new proprietor of the Gleichen Hotel, is making many improvements to the hotel and has already effected changes that are appreciated by the guests, but the new addition is rapidly nearing completion which will make this hotel one of the best in the Bow Valley.

The trial of the Indian for shooting "Happy" Davis, late of the R. N.W.M.P., comes up at Calgary assizes, opening on the 15th inst. Great interest will be taken locally in this trial.

The International Dry-Farming Congress a Lethbridge from Oct. 19 to 26.

## The Auto Man With a Mission

A. W. Wilby is a man with a mission. He should be here in Gleichen next week. He is in his car "Pathfinder," and travels under the auspices of the Canadian Highways association and to demonstrate the necessity of a national highway, at the same time arousing sentiment in favor of it.

"I am interviewing the different provincial governments," he said in a recent interview in the east, "to give their support to this enterprise and then the matter could be taken up with the Dominion government, whose engineers could supervise the building and planning of the roads. This country and the States are the only countries where they leave their road building to the municipalities, with the result that the people in the big cities in Canada are virtually prisoners in their own cities like the automobiles in Winnipeg, running around the city like birds in a gold cage."

Mr. Wilby, it will be remembered, traversed the United States in an automobile, and in his eventful life has gathered a horde of interesting experiences. Through Europe, South Africa, Australia, and in every clime he has toured with a special eye to roads. A peculiar feature that struck him about Canada was that the only big highways she has, all lead into the State. The first one runs south from Montreal, another runs south from the Sault, another from Port Arthur, and still another from Winnipeg, the meridian road that runs straight south to Kansas. Vancouver has a real highway, and it, too, leads south to Seattle.

For the benefit of the many kind enquirers it may be said Clarence Evans was able to return from the Calgary Holy Cross Hospital Saturday, and although very ill at times since, is slightly improving under the care of Dr. Farquharson and Nurse Leigh.

A. Whitely, the popular pianist, has decided to accept a limited number of pupils, upon the request of several townspeople. He states all who desire his services must agree to come to his residence.

## Gleichen School Report

Standing based on class work and written test at end of month:-

**Primary Department**

Grade 2
- Margaret Hollett
- Roy Wishart
- Beatrice Buckley
- Robert Higgins
- Austen Wilson
- Willie Arial
- Auker Jensen
- Pearl Hansen

By L. G. MOBERLY

Author of "Dan and Another," "A Tangled Web," "Sin of Allson Deering," etc., etc.

WARD, LOCK & CO., LIMITED
London, Melbourne and Toronto.

(Continued).

Dynecourt looked at him narrowly, and behind the surgeon's dark eyes his brain was busily calculating possibilities and probabilities. Soames was right in calling himself sane. At the moment he was absolutely sane, and—if the burden on his conscience were removed, the chances were ten to one in favor of his remaining sane. It would be better, then, that he should be allowed to escape than that he should be tried for his crime and blurt out, as he assuredly would blurt out, all that passed between him and Dynecourt.

He won't care how much he implicates me, Oliver reflected. He is intent on nothing but salving his own conscience, and he will be ready enough to involve me or anybody else.

Let me come with you directly. The lawyer dragged himself from his chair shaking in every limb. I tell you, Dynecourt, I can bear no more. Let me go with you now, let me tell you the truth; if I don't I shall go mad again, and Tritton will come back—and let me go now, at once—for God's sake, man, let me go now!

Very well, very well, Dynecourt answered soothingly. You shall tell the truth and ease your conscience. But, he touched the other's arm and spoke into his ear. I'm not going to give you up or let you give yourself up. For the sake of our old friendship, he gulped over the word, I want to help you to get away.

Get away? Soames stared stupidly at him. It's compounding a felony, you know, he said with odd gravity.

Very likely it is, but—I'm going to do it. Have you money enough to get yourself out of England and to live, when you are in another country?

His old look of shrewdness flashed into the lawyer's small eyes, he winked slowly, and smiled, and a feeling of repulsion swept over Dynecourt; he felt that he could have willingly have struck that smiling face, with its cunning leer. By some freak of remembrance he saw Clare Bevan's honest eyes, and the thought of what he was doing, and of his motive for doing it, and made him sick with shame.

I can get money right enough without signing Edward Soames for it, the lawyer whispered. In my profession—in fact all professions—it's safer to hedge, safer to bank in different banks under different names, than to put all one's eggs into one basket labelled with the name given you by your parents. If I can get out of the country—I shall do.

I'll give you the chance. Dynecourt said shortly.

But mind, a hand that shook again, was laid on the surgeon's arm, mind—the truth's got to be told. If it isn't told he'll haunt me again, and I want to start a fresh life somewhere else, and forget—forget—his dreadful face.

The extraordinary mixture in the man of superstition and astuteness filled Dynecourt with contempt, and contempt was the predominating feeling in his mind when having informed Tomlinson that he intended taking the patient back to town, he and Soames drove away together in a four-wheeler.

I'm not going to take you to my rooms again, he said; you frightened my landlady last night. And, as the police are investigating the clue found by Miss Dyson, the clue which in some way involves you, your house is probably under close observation.

I don't know what to do, then! Soames exclaimed shakily. I can't think—my brain feels tired, and I don't know what to do.

I'll tell you then; I've thought it out. You can take the Metropolitan anywhere you like and go to Baker Street. From there go by Metropolitan extension to any place outside town, and then double back, and get to a sea port. The police, as I say, may be after you but I've no doubt you are as great an adept at changing your person as you are at altering your name.

I can shave off my beard and moustache, and my best friend wouldn't know me, Soames answered eagerly and tremulously, and I can get different clothes. I can do it all right. I—I—can't ever thank you enough for the way you're helping me. God knows why you are doing it.

The devil knows, Dynecourt said with a grim laugh. God hasn't much hand in this business; it's more of a devil's job. You and I are not likely to be specially favored by Providence.

Soames shrank back in the cab, his eagerness subdued by the other's tone his nerves still shaken by all he had been through, and he eyed Dynecourt fearfully.

Now attend to me, the latter continued with an almost brutal disregard of his companion's frightened manner. You can give me a knock on the head presently—not too hard a one, he added grimly, as a strange look flashed into Soames' eyes; just enough for me to say you've done it—that's all. I can feign unconsciousness all right, and you stop the cab at the next underground station, get out, and then tell the cabby to drive on to my lodgings. When he gets there, I shall still be, to all intents and purposes, unconscious. You understand?

Oh yes, I understand. The gleam had died from Soames' eyes, he was once more meek and nervous, and drew back into a corner of the cab, if it were he, not Dynecourt, who was to receive that blow on the head.

Better get out at Notting Hill Gate, I should think, Dynecourt said carelessly, turning to glance from the cab window at the long ascent of the Uxbridge Road they were now climbing. It's just past six now. I'll give you twelve hours' start. You ought to be able to catch the night boat tonight, and I shall say nothing till tomorrow morning. I shan't have collected my wits till then—

No, you won't—you won't—you won't! snarled a hoarse voice in his ears, and with each utterance of the words a heavy blow descended on the surgeon's head. You won't need to feign unconsciousness, my fine fellow You'll be really unconscious, and—I'm not mad now—not a bit mad; not a bit! and whilst he pounded at Dynecourt the lawyer nodded and smiled at an imaginary person on the opposite seat.

(To be Continued)

Yours truly,
VILANDIE FRERES.

---

A local painter worked three months on a painting. He spent a good deal of money on models, but the finished product justified all his expenditure and all his time. Everybody told him so when the picture was exhibited. Everyone but one. This lady, whose opinion he valued most, was the one he took to the exhibition with him. I can hardly wait, she bubbled. Which is your picture? This one, he told her—and waited. She studied it in detail. What is it called? she wanted to know. Wood Nymphs. How silly of me to ask! They're so natural. Why, anybody would think they were really made of wood.

# WOULD SCREAM FOR HOURS WITH ECZEMA

## Baby Dreadful Sufferer. Could Not Keep Him from Scratching. Every Joint Affected. Used Cuticura Soap and Ointment and He Is Well.

"Enclosed find my son's photo and I feel by writing these few lines to you I am only doing my duty, as my son was a dreadful sufferer from eczema. At the age of two weeks he began to get covered with red spots on his legs and groins, which mother thought was red gum or thrush; but day by day it grew worse until every joint and crevice were affected and baby started screaming for hours day and night, such a thing as sleep was out of the question. I took him to two of Sydney's leading doctors; one said it was one of the worst cases he had seen, the other did not think it so serious; one ordered ointment for rubbing in, the other a dusting powder. I followed their prescriptions for over four months and still baby kept getting worse. I could not keep him from scratching so great was his agony.

"When he was five months old I tried the Cuticura Remedies and I am very thankful to say my baby is to-day free from all his suffering. His groins were bleeding when I started and other parts affected were the lower part of his body, under the knees, arms, in arm joints, eyebrows and neck; but after twice using Cuticura Ointment I began to see a difference and by the time I had used one tin, along with the bathing with Cuticura Soap, baby was nearly cured. I still kept on using the Cuticura Soap and Ointment, and now, thank goodness, he is quite well and, although he is now ten months old, has not had any further return of the trouble." (Signed) Mrs. G. Martin, 2 Knight St., Erskineville, Sydney, N.S.W., Mar. 31, 1911.

Cuticura Soap and Ointment are sold throughout the world but a liberal sample of each, with a 32-page book on the care and treatment of the skin and hair will be sent free on application to Potter Drug & Chem. Corp., 60 Columbus Ave., Boston, U.S.A.

---

**Repartee in Politics**

If the name of the victim of this story were published, it would create a sensation from the Atlantic to the Pacific, not to say from the Great Lakes to the Rio Grande. In short, if the name were known, the gentleman in question would have seven duck fits, and the remainder of the population of the United States would leap madly into laughing hysterics. However, the victim is a man high in national politics and prominent in the staring public eye. He had befriended the hero of this narrative, and had bound him to him with hoops of steel. An exigency of politics required signal service from the lesser light, and the great man sent for the other and said to him:

I am your friend. I have made you what you are. For my sake go out into the countryside, and do thus and so.

The lesser light, having consulted his own interests and the opposite faction in the party, journeyed forth all right enough, but what he pulled off in the aforementioned countryside was in direct contradiction to his instructions. When he returned to the place from which he had started, he called at the offices of his powerful friend, but was received by a subordinate, who said:

My boss thinks that you have treated him very badly in view of all his past friendship for you, and he will not receive you. Furthermore, he wishes you to send back to him the autographed photograph which he gave you.

The man, thus rebuked, hurled himself into a taxicab, dashed into his humble dwelling seized a large stub pen wrote an inscription across the picture, and sent the photograph back to its giver. The inscription read thus:

Received without solicitation—returned without regret.

---

**Do it Quickly**

We (Australians) look to Canada with the greatest admiration; we know that intense as our loyalty is, that your loyalty is just as intense, just as undoubted; we think you may adopt some other method than ours in your wisdom, and it is not for us to speak a word to you in matters that so closely concern you, but I think we have a right to say in Australia after what we have done that whatever the empire has got to do, or is willing to do, to strengthen the hands of our motherland, ought to be done quickly.—Sir George Reid at Toronto.

---

**He Got It**

Oh, said the manager, in the interview with Timkins, what I want is a reliable clerk for the weighing room. One who knows what's what. Do you understand?

Timkins nodded.

You know your weights and measures table of course, went on the manager. You might just run through them now.

Fifteen ounces make one pound—, began Timkins.

Go in and start at once, cried the manager, with a grin of satisfaction. You're the man for me!

---

Tommy (at a concert, watching soprano singing aria and conductor waving baton)—Ma, what's that long-haired man hitting at her with that stick for?

His Mother—He isn't hitting at her, Tommy—Then what is she screaming about?

---

This section is almost mountainous, remarked the pedestrian to his companion as they trudged along a country road one summer's day, carrying heavy grips.

Yes, it's a bit hilly, said the farmer a few minutes later as he drove his guest from the station in the big buckboard.

Nice rolling country this, observed the automobilist to his chauffeur as they whizzed by in a big touring car.

Gee, what a flat, uninteresting region, thought the aviator, looking down as he sailed over it in his majestic biplane.

---

**Do Animals Swank?**

The delightful story of Brer Rabbit and Brer Fox will help us to answer this question in the affirmative. As a matter of fact, animals undoubtedly do swank, and the domestic ones when made pets of, will give themselves as many airs and graces as a girl in love.

It is this characteristic that renders so many of them amenable to training. The writer has known a rat in a stable to lie on its side and pretend to be dead. When turned over with the foot it has instantaneously become very much alive and scooted for all it was worth.

An old horse employed in farm work would pretend to be very lame when put on the milk-churning, which necessitated his going round in a circle, but directly he was taken off he would, metaphorically speaking, frisk like a kitten.

The Irish terrier and the collie are terrible swankers. They will put up with any amount of petting, but directly the victim is off his guard they will not hesitate to nip.

Everybody is familiar with the phrase, playing possum, meaning of course, lying low, or pretending. This extraordinary little animal, if attacked, stretches itself stiff upon the ground. You may beat it, throw water upon it, and all but kill it, yet when you have turned away in the firm belief that it is dead, the little imposter will jump up and, scurry to safety.

It is common knowledge among sportsman that a partridge will flutter just ahead of dogs or men, pretending to have a broken wing, till she has lured them away from her babies. Then she rises and sails home like the wind.

---

**No Longer a Luxury**

What's the trouble?

There's a tramp at the door with a rickety automobile. Wants to know if we can give him an old set of tires.

---

It is eighty-three years since the first horse-drawn public omnibus ran in England: the first public motor-bus ran eight years ago.

# More About The Loading Platform

The present generation of Western farmers will never know the difficulties and vexations experienced by their predecessors in the earlier years when no one could get a carload of grain shipped in bulk except by loading it through an elevator. The system forced the majority of farmers to sell their grain to the elevator owners at arbitrary prices, and oft times to submit to heavy dockage and other annoyances, causing continual dissatisfaction. Now however the distribution of cars as fixed by the Grain Act and the use of the loading platform, provide facilities which enable the farmer to secure satisfactory treatment in the disposal of his grain and the highest market prices at time of sale. Every farmer therefore, should more and more endeavor to use the loading platform in shipping his grain to the terminal elevators. It is the safeguard of the farmers' freedom in disposing of his grain to the best advantage for himself. If farmers refrain from using the loading platform freely, it might result in its being done away with, because railway companies and elevator owners are strongly opposed to it. It is easy to understand why elevator people desire the loading platform abolished. The railway people on their part say it delays the loading of cars and helps to cause car shortage. This we know to be nonsense, because frequently after cars are loaded, whether with grain, coal lumber or other merchandise, they are sidetracked for days and even weeks instead of being promptly moved forward to destination. It is engine shortage and shortage of competent train men that mostly causes grain blockades on railways and not lack of cars. Let every farmer therefore, do all he can to use the loading platform and become an independent shipper. In subsequent advertisements we will state in detail the savings and other advantages of direct loading into cars compared with loading through elevators.

We handle the farmers grain strictly on commission, make liberal advances on car bills of lading, supervise the grading at time cars are inspected, secure the highest prices at time of sale and make prompt returns when sold. Write us for shipping instructions and market information.

---

Caller (viewing the new boy)—Do you think he is going to resemble his father?

Mother—I shouldn't be surprised. He keeps me up at night even now.

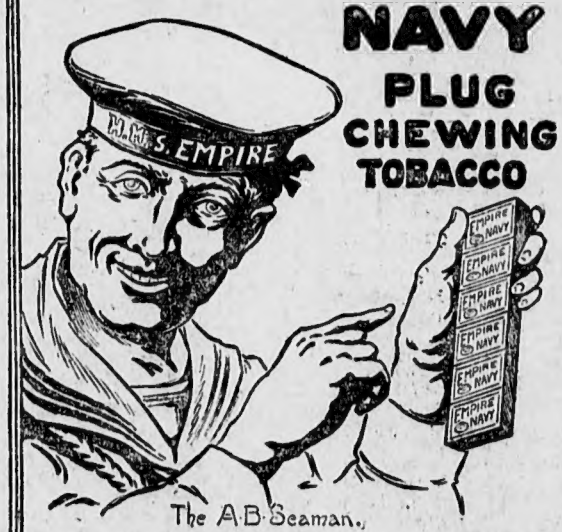

---

Pa, why do you always insist on me singing when Mr. Spoozleton come here? Well, I don't like him, and yet I hate to come right out and tell him to go.

---

A lady was seen promenading the streets of Bournemouth the other week carrying a monkey under her arm. Less disturbing to one's equanimity is the practice of another lady in Bournemouth, who never goes abroad on her cycle without being accompanied by her household cat, which reposes on her left shoulder unperturbed by the clatter of passing trams and motor-cars.

# EMPIRE NAVY PLUG CHEWING TOBACCO

The A.B. Seaman.

**What the A. B. Seaman Says:**

**"A sailor's life is bold and free, and life is one grand sweet song—as long as there's lots of Empire Navy Plug Chewing Tobacco."**

---

**Fitting Subjects**

Casually, by chance unsought, they met in the railway carriage. He was a young man, beardless; his companion a hoary oldster.

So you are a teacher? remarked the talkative veteran. I'll wager you had to pass a pretty stiff exam.

Yes; indeed! replied the instructor of the young.

And what were the subjects? inquired the inquisitive passenger?

Well, we were examined in psychology, integral calculus, mathematical astronomy, polemic divinity, metaphysical analysis, and Greek, Latin, French and German versification.

Indeed! And for what position were you striving?

Teacher of the infants, sir.

### The Better Way

A lady, who was sitting in the middle of the stalls at a matinee and was wearing a regular floral avenue of a hat, was politely asked to remove it, but she somewhat rudely refused. At last the nuisance became intolerable, and various uncomplimentary remarks were heard all round her. A gentleman, reprimanding a youth near him, who had given vent to a particularly sarcastic remark, said, so that he could be heard by all around:

If you only knew what you were talking about you would hold your tongue; that lady is a friend of mine, and has not long recovered from a serious illness, which has left her quite bald.

With a vicious jerk the offending hat was removed to disprove the fiendish assertion, and the view of the stage was not impeded any longer.

Minard's Liniment for sale everywhere

### To Fit the Crime

For a scolding wife the branks and ducking-stool were formerly regarded as infallible correctives. Not more so, however, than the method employed by a Saltzburg burgomaster, who sentenced a woman convicted of virulently abusing her husband, to stand in a public place, and for six hours every day for a week direct a torrent of violent objurgation against a straw effigy fashioned to represent her spouse. Not a minute's respite was her tongue allowed, the briefest silence being sharply punished by a stinging cut from a whip wielded by an official who stood at hand to see that the sentence was duly carried out.

It one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

Of the 3,000 languages and dialects on the earth, the Bible has been translated into 180.

They were seated in the dim light of a conservatory. She was playing with her fan, and he was murmuring soft speeches in her ear. Suddenly he leaned forward and impressed a kiss on her soft cheek.

Oh, Charlie, she cried, how you frightened me!

Then after a few minutes she said: Frighten me again, Charlie.

Light moves at the rate of 200,000 miles a second.

Popular men know so many people that speaking to all of them must be a burden.

### No Approval

A Sheffield merchant, whose daughter had married a man, with whom it proved she could not get on very well, was much surprised some weeks later to see the young lady return home again with all her belongings.

The old man listened very attentively to her story, and then went to his desk and wrote a note to his son-in-law which he gave to his daughter, assuring her that her husband would receive her kindly after this.

The pair, on reading the letter, found in it the following notice:

Dear Sir,—Goods that have been selected of one's own free will at my establishment are not taken back again.

The young couple laughed and were reconciled.

### IT'S THE FOOD

**The True Way to Correct Nervous Troubles**

Nervous troubles are more often caused by improper food and indigestion than most people imagine. Even doctors sometimes overlook this fact. A man says:

"Until two years ago waffles and butter with meat and gravy were the main features of my breakfast. Finally dyspepsia came on and I found myself in a bad condition, worse in the morning than any other time. I would have a full, sick feeling in my stomach, with pains in my heart, sides and head.

"At times I would have no appetite for days, then I would feel ravenous, never satisfied when I did eat and so nervous I felt like shrieking at the top of my voice. I lost flesh badly and hardly knew which way to turn until one day I bought a box of Grape-Nuts food to see if I could eat that. I tried it without telling the doctor, and liked it fine; made me feel as if I had something to eat that was satisfying and still I didn't have that heaviness that I had felt after eating any other food.

"I hadn't drank any coffee then in five weeks. I kept on with the Grape-Nuts and in a month and a half I had gained 15 pounds, could eat almost anything I wanted, didn't feel badly after eating and my nervousness was all gone. It's a pleasure to be well again."

Name given by Canadian Postum Co., Windsor, Ont. Read the book, "The Road to Wellville," in pkgs. "There's a reason."

**Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.**

### Summary Justice

On the arrival of the judge who had convened a court in one of the towns of Arkansas circuit, it was found that no pens, ink, or stationery had been provided. Having expressed himself with due forcibility, his Honour took some money from his pocket, and was about to hand it to an attendant, when he paused. There was a high-fee lawyer in the well of the court, who at that moment was heard to remark, Well, I've seen some pretty bad courts, but this—well, this is the limit. The brow of the judge darkened. You are fined five dollars for contempt, sir! he said. Hand the money to the attendant. While to the latter he said Now, David Bryan, just you step out quickly and get the articles required and if there is anything left over you can hand this gentleman his change.

Sea-water contains silver in considerable quantities, and it is often found deposited on the copper sheathing of ships.

When artists are permitted to make copies of pictures in a public picture gallery they are allowed to sell the copies for their own benefit.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

WALDING, KINNAN & MARVIN,
Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

A rustic, who did odd jobs for the village blacksmith, asked leave of absence for the following day, which was granted.

During the morning his employer noticed him dressed in his Sunday best, coming down the road from the direction of the church, sheepishly followed by a woman who kept about two paces to the rear, on the opposite side of the road.

Jerking his thumb over his shoulder in the direction of his companion, and at the same time indicating her with a movement of his head, the yokel solemnly ejaculated:

Got 'er.

## KIDNEY PAINS IN THE BACK

COULD NOT STAND OR EVEN TURN IN BED—LEGS GREATLY SWOLLEN

All Doctor's Medicine Failed—Cure Effected by Use of

**DR. CHASE'S KIDNEY-LIVER PILLS.**

Again this great medicine has triumphed over kidney diseases of a severe type. From a bed of suffering and helplessness Mrs. Walsh was restored to health and strength by using Dr. Chase's Kidney-Liver Pills.

Kidney pains in the back tortured her. Dropsical swellings had set in and she had no reason to hope for cure, since the doctor's medicine failed to even relieve her. Read what the husband says about this remarkable cure.

Mr. Thos. D. Walsh, Pictou, N.S., writes:—"Two years ago my wife took to her bed after suffering for a long time from kidney pains in the back. She was not able to stand on her feet or even turn herself in bed. The doctor's medicine was no benefit whatever, that we could see. Sometimes her legs would swell considerably. Reading about a woman in similar condition being cured by Dr. Chase's Kidney-Liver Pills, we purchased two boxes and when these were used she was able to sit up. With three more boxes she was restored to health and doing her own housework.

As for myself I also found these pills all that is caimed for them. I give this statement in order that others may obtain the same ease from suffering as that experienced by my wife and myself."

One pill a dose, 25c. a box, at all dealers or Edmanson, Bates & Co., Limited, Toronto.

I think it's an excellent idea, remarked the new lodger, as he finished his soup.

Ah! said Mr. Starvem, not used to beginning your dinner with soup, eh?

Soup? I thought it was hot water to prevent dyspepsia.

**Asthma Overcome.** The triumph over asthma has assuredly come. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it to-day from your dealer.

Authoress (of the budding variety) I got level with that editor last night. He always rejects my MSS. But I have had my revenge.

Friend and Consoer—How did you do it?

Authoress—I declined his son, with thanks.

### The Rag Dealer's Scales

When a son was born to the head of a certain family in an Ohio town, the proud father went out of the house to borrow a pair of scales. Just as he dashed out of the gateway, he ran into a rag dealer, who was calling at the top of his lungs:

Any rags, any bottles, any—

Look here! exclaimed the excited parent. Come into the house, I want you to weigh something for me.

The man did as requested. The pink mite was tied up in a towel and hooked on to the scales.

Six pounds! cried the nurse.

Six pounds, repeated the disappointed father.

The rag dealer smiled. Don't let that worry you, my friend, said he. Then is the scales I buys by. I guess the kid weighs ten pounds, maybe a little over that.

### Turning the Tables

In some cases counsel receive answers to questions that they had no business to put, which, if not quite to their liking, are what they justly deserve. The following story of George Clarke, a celebrated negro minstrel, is a case in point. On one occasion, when being examined as a witness, he was severely interrogated by a lawyer.

You are in the minstrel business, I believe? inquired the lawyer.

Yes, sir, was the reply.

It not that rather a low calling?

I don't know but what it is sir, replied the minstrel, but it is so much better than my father's that I am rather proud of it.

The lawyer fell into the trap.

What was your father's calling? he inquired.

He was a lawyer, replied Clarke, in a tone that sent the whole Court into a roar of laughter as the discomfited lawyer sat down.

For three solid hours the captain had been lecturing his men on "the duties of a soldier," and he thought it was time to see how much they had understood of his discourse. Casting his eyes round the room, he fixed on Private Murphy as his first victim.

Private Murphy, he asked, why should a soldier be ready to die for his country?

Private Murphy scratched his head for a moment, and then a smile of enlightment crossed his face.

Sure, captain, he said, pleasantly, you're quite right. Why should he?

Bang! went the rifles at the manoeuvres. Oo-oo screamed the pretty girl—a nice, decorous, surprised little scream. She stepped backward into the surprised arms of a young man. Oh, said she, blushing. I was so frightened by the rifles. I beg your pardon. Not at all, said the young man. Let's go over and watch the artillery.

You must have had a terrible experience, with no food and mosquitoes swarming around you, said a friend to the shipwrecked mariner who had been cast away upon a tropical island.

You just bet I had a terrible experience, he acknowledged. My experience was worse than that of the man who wrote, "Water, water everywhere, but not a drop to drink." With me it was bites, bites everywhere, but not a bite to eat.

Thirteen Hebrew or Yiddish papers are published in New York, three of them being dailies.

A Russian smuggler was shot recently by Cossacks just as he was crossing the Austrian boundary, not far from Czernowitz. The body fell across the frontier, the head in Russian territory, the trunk on the strip of neutral ground which forms the frontier, and the legs in Austria. No one is competent to deal with the removal of the body, as it fell in different countries. It was still lying, at the time of writing, unburied, the head guarded by Cossacks, the rest by Austrian gendarmes.

**Grocers are firm friends of Windsor Table Salt. They like to sell it, because it is pure and clean and good.**

Ask any grocer for his best salt, and he will give you Windsor Salt every time. Not because it costs more—*it does not*—but because the grocers know that Windsor Table Salt pleases their customers. 57

### Where the Promise was Made

The other day a well-known counsel examining the plaintiff in a breach of promise case inquired of her:—

Was defendant's air when he promised to marry you perfectly serious or one of levity and jocularity?

The compialnant replied: If you please, sir, it was all ruffled with him running his hands through it.

You misapprehend my meaning, said the counsel. Was the promise made in utter sincerity"

No, sir, it was made in the washhouse, replied the plaintiff, amid roars of laughter.

If your Clothier does not sell

**Write for the "Concrete Book"**

IN Canada, where the winters are long and cold, houses must be solid and substantial. No "gingerbread frills," such as distinguish California bungalows, can be permitted. Canadian homes should be built to defy wind and cold, to keep warm inside when it's thirty below out-doors.

IT is because Concrete, of all materials, best withstands wind, water and cold, that it is fast becoming popular with Canadian home-builders. Concrete houses are warm in winter, requiring less coal for heating; they are cool in summer. A Concrete house never needs repairs; because, instead of decaying, it actually grows stronger with time and exposure to the elements.

VERY attractive architectural effects may be obtained with Concrete, especially for houses in the country, where the rough concrete surface harmonizes with its surroundings.

SINCE it never requires repairs, the first cost of a concrete residence is its last cost; and it is cheaper, for this reason, than any other kind of home.

NOT only is Concrete the best material for house-building. It may also be used in scores of other ways around the home and on the farm. For each of these purposes it is the best material known.

IF you haven't investigated the use of Concrete around the home and on the farm, write now for our free book, which tells all about the mixing and placing of Concrete, and describes hundreds of practical uses for it. Just say "Send me your book" in a letter or on a post card, and the book will be sent you absolutely free.

## Millions of Dollars in Canada's Strong Box

An Ottawa despach says: The Dominion's financial statement for the past six months made available today, shows a total revenue of $81,378,650, an increase of no less than $17,309,126 as compared with the corresponding period last year. The increase averages nearly three millions per month and is the largest on record for any half year in the history of the Dominion. The growth of the imports with consequent increase in the customs revenue accounts for the greater part of the total gain. For the six months the customs receipts totaled $56,455,196, a gain of $14,170,611 over last year. Excise revenue totaled $10,182,014, a gain of about one and one-third millions. Post office revenue increased by $600,000.

With the growing revenue there have also been growing expenditures. The expenditure on consolidated fund accounts for the six months totaled $43,931,539, an increase of about eight millions, or about 23-per cent over the first half of the last fiscal year. Capital expenditure, figures which are necessarily incomplete, shows an expenditure of $11,671,983, which is practically the same as for the corresponding period last year.

The net debt of the Dominion at the end of September was $313,508,376, a decrease of $3,016,796 during the month and and a decrease of over ten millions as compared with the debt September 30, last year.

## Ranching Commission gets Started

The Ranching Commission has started on its labors which is the result of an agitation started in the Call several years ago by Douglas Hardwick, one of Gleichen's foremost ranchers. Mr. Hardwick and his friends have been earnestly working in this direction for a number of years and it is to be hoped good will result from the commissioners investigation for both the ranchers and the farmers. Naturally the Call is pleased to see this further step in a matter of such great importance to Western Canada as it was initiated through this paper.

## The Best Kinds and Means of Advertising

Wide currency has recently been given to the fact that the French Government is waging vigorous war upon the billboard. But it is surprising news to learn that a suit has been brought at New York against an alleged billboard trust. The billboard has become a sign of the times in another than its usual way and it looks as if society in Europe and the United States alike were to crusade against this devastator of natural beauty and public feelings.

It looks a little like the passing of the billboard. The circus virtually originated it, but this begins to abandon it. It has learned that, except in small rural communities a spread of ravening lions does not produce so effective a dent on the patron's purse as do five inches of advertising in the papers. In faith that newspaper advertising returns immediate results the circus is turning to this medium and making a beginning of the end of advertising through billboards.

Some periodicals have recently been talking about the art of advertising. The New York Independent sets forth the difference from the point of view of business between a bad and a good advetisment. Worthless advertisements are thoes that lie or make misstatements at the start to gain attention. Excellent advertisements are those that appeal to the judegment of the sense for which the advertised article is intended.

Advertisers agree that misrepresentation defeats its own objects. Honesty always and everywhere proves to be the shrewd policy, financially as well as ethically. Merit, simplicity and veraciousness are the winning cards in the game of advertising.

Just because the bills were dirty the Ottawa department of Finance during the past year destroyed $8,506,832 in one dollar bills and $5,638,616 in twos. Now many a good suppoater of the Government would willingly have taken a chance on those $14,145,448 of dirty dollars and thsir children and grand children would probably ever be be good supportors of the government. It is up to some oppositionist to register a kick.

Anything that is produced in Gleichen from Gleichen materials by the application of Gleichen brain, labor and trade will always have first call with me and support. And its only good business on my part that it should. I will go further and say that my next preference will be the West, then the great Dominion.

A. B. C. Investment is all right, see F. L. Harris' ad. in this issue.

Rip Van Winkle was taken seriously ill at Calgary and consequently did not put on his show in the Gleichen Opera House Saturday evening. Let us hope he will not sleep another twenty years.

The Lethbridge Dry-Farming Congress is the next great event of the West, Oct. 19 to 26th.

You really should have seen the alfalfa prize winners smile when they read the Call last week. They were a happy bunch, and, of course, they wanted a few extra copies to send to their friends.

Mrs. R. A. Allen and family left last week to join Mr. Allen on the Sarcee reserve where he has accepted a position as farm instructor. They will be missed from Gleichen by a host of friends who held them in the highest regard during their long residence in this district. When seen, Mr. Allen emphatically stated that he had no thanks to render the local association for his appointment, but a few old Calgary friends had shown that their friendship was worth remembering.

Manager Cameron of the Bank of Commerce has returned to his duties after spending several weeks of well-earned holidays, accompanied by Mrs. Cameron.

## The New Empresses

In speaking of the two new steam ships the "Empress of Russia" and the "Empress of Asia" which the Canadian Pacific is building for service on the Pacific Ocean between Canada and the Orient, a C. P. R. official remarked yesterday that he felt justified in saying that the two new boats would be the safest vessels afloat.

"In preparing the plans for the new "Empresses", he remarked, "we took particular care to make provision for all exigencies, and as a result the boats are as near to being unsinkable as can be built. The new "Empresses" are being built with double bottoms and watertight compartments, the latter being numerous and closely placed. Ordinarily if a ship is designed to float with only two compartments flooded, a sufficient margin of safety is thought to have been allowed, but in cases of the new "Empress of Russia" and "Empress of Asia" should four compartments be flooded they will still float. In the matter of safety, these are the first vessels built to fulfil these conditions."

It was also stated that the new steamships would be equipped with all the other latest devices making for safety, such as wireless apparatus, search lights, submarine signals and from the very moment they are assembled, the members of the crews will be trained in the life saving, fire and other drills, which are a feature of all this company's steam ships.

The Call is just as pleased to get a verbal boost as you are to get a printed one.

We would call attention to F. L. Harris' ad. of B. C. Lands for sale

An ad. appears elsewhere in our columns calling for the sinking of thirty wells on the Blackfoot reserve tenders to close Oct. 15th. For full particulars see ad.

Rowe, Rowe & Rowe have some pictures and frames that are worth your while calling at the factory to see. You will want some of them sure.

It won't do us the least bit of harm when you get a bargain, if you ask the merchant why he did not say so in the Call.

Advertise in the Bow Valley Call

## Notice to Well Drillers

Blackfoot Indian Agency,
Gleichen, Alta., Oct. 4th, 1912

TENDERS are solicited for the sinking of THIRTY (30) wells more or less, complete with 5½ inch die steel casings or where a bored well is deemed preferable with two inch cribbing, 2 feet in diameter, on the premises now erected and being erected for Indian houses on the BLACKFOOT Reserve, and which are situated on different quarter sections within three miles of Stobart, Gleichen, Phidias and Cluny on the main line of the Canadian Pacific Railway, at a price per foot each, for drilling and boring.

Tenders also to state price per well for building platforms, fitting, setting pump and piping and completing the well in satisfactory working order.

Pumphead, cylinder, valves, piping, pump rod and couplings, lumber and nails will be supplied by the undersigned.

The right is reserved to reject any or all of the tenders.

Each tender must be accompanied by an accepted cheque on some Canadian chartered bank for the sum of $300.00 made payable to the order of the undersigned.

The cheques of the unsuccessful tenderers will be returned and when the successful tenderer enters into approved bonds for the proper completion of the work the cheque will also be returned, but if the successful tenderer fails to provide satisfactory bonds for the completion of the work, it is understood that the $300.00 is forfeited.

TENDERS will close at 5 p. m. on October 15th, 1912.

Address all tenders to

J. H. GOODERHAM,
Indian Agent,
Gleichen, Alta.

## Strathmore Jottings.

Constable Holmes, who recently resigned his position here has received an appointment with the Calgary Police, mounted section.

Much sympathy is felt for Mr. E W. Pust and his family in their sad bereavement in the death of Mrs. Pust on Wednesday, Sept. 25. from apoplexy after a few hours illness.

Strathmore is having what should be a very popular series of dances the first of the series was held Oct. 1

Miss Wright recently entertained the Anglican Ladies' Aid to tea on the occasion of their last meeting, an enjoyable time was spent.

Their many friends were glad to see Mr. and Mrs. Gladwin of Calgary, who recently spent some time here renewing old acquaintances.

Strathmore is making preparations for the Lethbridge Dry-Farming congress, their exhibit promises to be a good one.

J.A.McDonald, the popular depot agent at Strathmore returned a week ago from a visit to his relatives in the famous Bruce County. He reports a good time and looks the better of his holiday. He was accompanied by his wife and child.

## Ranch Commission Ready to Start

The members of the ranching investigation commission, recently appointed by the minister of the interior, G. H. Pope, of Winnipeg, and C. F. Graham, also of Winnipeg, have begun operations with a view of securing all the facts bearing upon the live stock industry of Western Canada.

Their labors will form the basis of a report to be submitted to the government and this report will likely be the basis of administration and legislative action to stimulate the industry, which is not in the flourishing condition which might be expected from the opportunities afforded by the land and the great market for cattle.

The commission is about to start on an extended tour through the whole of the western country, and will hold meetings at different points where information and suggestions will be received from all those interested.

Chairman Pope of the commission said today that he will be glad to receive correspondence on the subject at his address, 85 Kennedy street. It is the intention of the commission to give ample notice through advertisement of the date of its meetings in various districts just as soon as its itinerary has been arranged so as to give an opportunity for the fullest investigation of the whole subject.

The scope of the investigation will largely be whether certain lands and what lands suitable only for grazing should not be set apart entirely for that purpose and reserved from occupation for other purposes altogether. It will also cover the ground whether the present tenure of a grazing lease is not too short to give adequate security to the owners of herds that they will not be put out of business by the cancellation of the leases.

It will also deal with the question of the locking up of large areas of grazing land under lease where sufficient cattle are not run to utilize the resources of the land for grazing purposes. This investigation has been undertaken in response to a very widespread feeling that the conditions of the cattle industry are neither as attractive to the individual or as valuable to the country, as they well might be. There seems to be an opportunity by which through wise regulation the cattle industry in the west could be made greatly more prosperous than it is, and the department has taken the preliminary steps of appointing a commission whose members are thoroughly conversant with the matter to obtain the data upon which administrative action may be based.

The members of the commission express no doubt that all who are interested in the west will co-operate with them in securing information through which the restrictions on cattle raising may be removed and general conditions greatly improved.

The matter is one of wide importance to Western Canada. It is a real step in the direction of sensible development so that the blades of grass capable of nourishing cows may have cows to nourish, and not to go to waste because it is impossible to utilize them for the only purpose of any value which they possess.

### BURNING UP CURRENCY

An Ottawa despatch says:—

The department of finance has been burning up much money of late in the work of cleaning up the currency. The circulation has been rid of a very large number of bills this year. The figures of the department show a large increase in the number of dirty bills turned in and destroyed. During the year of 1911-12 there were destroyed $8,506,832 in one dollar bills and $5,638,616 in twos. This year the cleaning process has produced much greater proportionate results.

During the period from April 30 to August 31, 1911, there were $3,479,828 in ones and $2.230,136 in twos. During the corresponding period this year there have been cancelled and destroyed $4,312,177 in ones and $3,141,102 in twos. The old bills are redeemed at the offices of the district receiver general in Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg and Vancouver. Thay are mutilated and forwarded weekly to the comptroller of the currency. The bills are then examined, checked, bundled, rechecked by the audit branch and then burned.

The International Dry-Farming Congress at Lethbridge from Oct. 19 to 26.

**It Has Been Proved**

That Machela, Nature's Scalp Tonic, has a record for growing hair—95 cases out of 100. It is the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. ### GLEICHEN TRAIN ARRIVALS

According to the new C. P. R. Time Table the passenger trains arrive in Gleichen as follows:

West bound—No. 61 at s1.45; No. 13 at 2.05; No. 515 at s10.40; No. 3 at s15.46; No. 1 at 24.38.

East bound—No. 62 at s1.45; No. 2 at 4.28; No. 4 at s16.10; No. 516 at s19.11; No. 14 at 24.08.

The letter "s" before each time indicates the passengers that stop at Gleichen regularly.

Say you read it in the CALL.

### IN THE SUPREME COURT OF ALBERTA

JUDICIAL DISTRICT OF CALGARY

BETWEEN:

The Imperial Life Assurance Co., of Canada, Plaintiff

—AND—

Burchard E. Kent, et al, Defendants

TAKE NOTICE that the Imperial Life Assurance Co. of Canada, of Toronto, Ontario, has commenced an action against you claiming the sum of $1142.72 with interest thereon at the rate of 8 per cent. from the first December 1911 payment, the amount due the said Company under your covenant contained in your mortgage to the said company, of $1000, with interest at 7 per cent per annum, on the Southwest ¼ Section 12, Township 19, Range 21, West 4th M.

AND TAKE FURTHER NOTICE that the said Company claims, in default of payment of the said sum with interest, an order for sale of the above described property to satisfy the amount due the said Company under the said mortgage, and also an order foreclosing all your estate and interest in the said lands.

AND TAKE FURTHER NOTICE that by order herein of the Honorable Mr. Justice Stuart dated, 6th September 1912, you are required to enter an appearance hereto with the Clerk of this Honorable Court at Calgary on or before the 20th Day of October 1912, and in default thereof such order may be made and proceedings taken in your absence as may be just.

Dated at Calgary, Alberta, this 4th September 1912.

# A B C. INVESTMENT IS OK

# ONE DOLLAR DOWN AND ONE DOLLAR PER WEEK

For five years pays for an improved fruit tract in B. C. At the end of the five years it should bring you in $500 to $1,500 per year.

**Actual Government Reports for the Kootenay Lake District show greater results from ONE ACRE**

There is hardly a man, woman or child in the United States or Canada who cannot afford **One Dollar Per Week** to establish a home in an ideal country like the famous Kootenay Lake District. In five years a clear title to one acre of improved bearing orchard is delivered to you or your heirs.

I have set aside five hundred acres of choice fruit land, and as soon as I have sold that out your opportunity is lost. I want every man, woman or child who reads this ad to send in their dollar at once and secure an acre tract on the above terms. Write for full particulars of the best offer ever made to those who wish a home in an ideal climate, where you will have honest and congenial neighbors.

I sell five, ten and twenty acre tracts on very easy monthly payments. Also give a big discount for cash. Join one of my monthly excursions and see the country for yourself. I have sold to several hundred people since January 1st. I live there myself. Have my own fruit ranch on the shores of the beautiful Kootenay Lake. **I want you for my neighbor in B. C.,** and I am sure you will want to be when you see the country. My new way to grow apples will interest you. Also the famous Kootenay Magazine tells all about the fruit and other industries of Southern B. C. Subscription price $2.50 per year, or sent free for a year on receipt of twenty names of friends or relatives who might be interested in B. C. fruit lands. My booklet, **"Home-seeking."** tells you how I spent five years in the West looking for what we all want—an ideal location for a home. It's free.

Write today, giving name of reliable reference, your nationality, and amount you wish to buy.

**F. L. HARRIS**

**818-820 Somerset Blk., WINNIPEG, Man.**

Kootenay Lake Offices: Proctor, B. C.

## Get Your Canadian Home From the Canadian Pacific

WESTERN CANADA'S DAY

This has been referred to as Canada's Century. In West-Canada we use no such general term—this is Western Canada's century, decade, year, month, week and day. With the passing of each twenty-four hour period, new business blocks and homes are under construction, new lines of railway have pushed on a little further, and each day is brighter than the one preceeding.

There is no safer or surer investment today than the farm lands in Manitoba, Saskatchewan and Alberta. If you wish your dollars to work every Western Canadian Day, call on or address

# MAKING FARM PAY

By C. C. BOWSFIELD

TO grasp the idea of money making through selecting the better types of live stock farmers need to learn the story of Banostine Belle de Kol, queen of the dairy world. This Holstein cow, now five years old and owned by Dimmick & Bro., Ohio breeders, produced last year 27,404.4 pounds of milk testing 3.86 per cent fat. This means over nine gallons of milk per day, or enough to supply thirty six families each with a quart of milk daily. If made into butter her fat production would equal 1,322 pounds of butter, or over three and one-half pounds per day for 365 days.

This is all the more remarkable because it was made without her being dry at all before freshening. No other cow has ever produced such an enormous amount of butter fat in a yearly test, and only one has exceeded Banostine's milk record.

Banostine Belle De Kol is a strong, vigorous cow of wonderful capacity and weighs in the neighborhood of 1,000 pounds. She is the daughter of Banostine Belle, who was a grand daughter of Euphrasia A., one of the greatest foundation cows the breed has ever produced. The sire of Banostine Belle De Kol is Friend Hengerveld De Kol Butter Boy.

During the time that Banostine Belle De Kol was in the test she received nearly if not all the time more or less ensilage and alfalfa. When available she received roots and mixed grain ration, the foundation of which was bran oats. She was also fed some dried beet pulp, especially when fresh roots were not available. Her grain ration from the first was gradually increased to twenty-five pounds or a little more, but later reduced to as low as nine pounds per day.

As near as can be estimated, the average amount of grain fed was twelve or fourteen pounds daily. She also received, when it was available, green corn with the stalks and also green clover and any other green feed that might be available, including feed from the pasture.

A cow of fair qualities produces four gallons of milk daily. She is not worth keeping for a dairy unless she will do this, and remember it takes no more feed, room or labor for one giving five gallons than for one giving three or four.

This reasoning applies with equal force to other kinds of stock, but more particularly horses and swine. It requires only a little intelligent care in selection to raise a horse that will bring $250 to $500, whereas $150 to $200 is the price of an ordinary animal. The feed bill is not a dollar more.

In raising cows breeding and selection will produce animals that will earn $100 to $150 a year or that will sell for $100 to $500, while the indifferent kind are worth next to nothing.

There is the same difference in breeding hogs. The gain comes chiefly after the owner has produced something a little better than ordinary. This truism applies to poultry, fruit and farming generally.

## DESTRUCTIVE APPLE PEST.

**Lesser Worm Continues Its Evil Work Even on Fruit In Barrels.**

In a bulletin on insects which do serious damage to the apple the United States department of agriculture treats of the lesser apple worm. The larvae, it says, do not reach full development as early in the fall as those of the codling moth and may find their way to barrels with the fruit, where they continue to feed, often doing considerable damage. The picture illustrates apples thus injured as found in barrels in the Washington market, in New York city.

The lesser apple worm is probably a native insect, and it infests other fruits, wild and cultivated, including

Photograph by United States department of agriculture

INJURY BY LESSER APPLE WORMS TO APPLES AFTER BARRELING

apples, haws, plums, prunes, cherries, peaches and species of crataegus. It has also been reared from the black knot of plum and from galls on oak and elm.

Its life history and habits probably parallel those of the codling moth. It is known to be present quite generally in orchards from Canada south to Georgia and west to the Rocky mountains. It has been found abundantly in apples in the Puget sound district in Washington and is known also from British Columbia.

The schedule of treatments recommended for the codling moth will be effective in the control of this species.

The treatment for the codling moth is limited almost entirely to spraying the trees with arsenicals, such as paris green or arsenate of lead. The latter is now principally used. In the east the poison is usually combined with a fungicide. In some sections banding of trees is also employed and under special conditions is a valuable adjunct to spraying. From two to five spray applications are given, according to the section of the country and the season.

Of all treatments the first is much the most important. This is given as soon as the blossoms have fallen and has for its object the placing of poison in the calyx cup of each little apple. This treatment may be successfully given during the eight or ten days between the dropping of the petals and the closing of the calyx lobes.

**Storing Onions.**

Onions to keep well must be stored in a cool and dry place. A little freezing does not necessarily hurt them if they are not exposed to frequent freezing and thawing.

Every farmer should get enough pigs to make his own meat next winter. Bacon is apt to be high and those who are raising crops to buy their supply are likely to regret it. The best plan is to raise your own meat and have plenty of feed to burn.—The Farm and Ranch.

## TWO WAYS WITH HOGS.

**Care Taken With Animals Repaid Owner In Amount of Pork Yielded.**

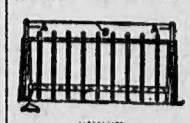

The results of different treatments of hogs came to my notice last spring, when a neighbor sold two average pigs eight weeks old to a man who did not have any other hogs, says a West Virginia correspondent of the American Agriculturist. He bought the two hogs to make pork the next fall and, of course, wanted to give them a good chance to do their best. They were fed wheat middlings, milk and scraps from the table, in addition to the pasture they gathered. They were grade Chester Whites, farrowed in April. These two pigs dressed between 150 and 175 pounds each when about seven months old.

The pigs that had not been sold and out of the same litter were allowed to run on pasture, and when corn was ready to feed they were fed enough corn to put them in pork condition, but when slaughtered at about the same time as the other two they only weighed sixty-five to seventy pounds each. There was a difference of nearly 100 pounds between these well fed hogs and their mates not so fed, and it was wholly due to different treatments. It is easy to see which was the more economical pork producer—the well cared for hog or the one which got enough feed to barely live until fattening time. The difference in value was almost $10, as pork sold at 10 cents a pound here last fall. The two well cared for hogs did not eat near $10 worth of feed from the time they were separated from their mates until they were slaughtered.

Toss those aggravating rocks from the wagon track before the freeze-up or you may just count on jolting over them all winter long.

**It Frightens Them.**

Do your chickens or your neighbor's fly over your picket fence into your garden? If so nail a little strip to each post and stretch a white twine string about six or eight inches above the top of the pickets. The same plan will apply to woven wire fencing. A white twine string stretched along each panel of fence has all the horrors of the inquisition for a hen, and she will positively avoid it. The sketch will give you the idea.—AA strips, B string.—A. J. Hamilton.

FENCE.

**Little Farm Hints.**

[illegible] done with manure [illegible] the escape of ammonia [illegible] of its most valuable elements.

Clean out the chaff and hayseed on the barn floor and scatter it over bare places in the lots and pastures. This small seed represents good money value and it should be put to good purpose.

If you want spinach for use in early spring, at the time when dandelion greens are ripe, sow seed in September or October. Frequently it does not winter well, especially if not protected by covering lightly with litter.

Where practicable the fruit orchards should be planted in autumn. Among the principal advantages are leisure time, better physical condition of soil and the early establishment and consequent earlier growth of trees. Owing to its less hardy nature the peach is to be excepted from the fall planting.

## Instructions to Farmers Shipping Grain

1. When placing your name on car order book state the size of car required.

2. If possible clean your grain well before shipping, by doing so the feed saved will in many cases more than pay cost of cleaning.

3. Sweep the car well, both floor and sides, especially if it has carried coal recently.

4. Examine car carefully for defects, and secure same against leakage.

5. In loading flax, it is a good plan to cover floor and sides of car with building paper (not tar paper)

6. If the grain door does not fit closely, do not drive nails through the door, as that interferes with the opening at the terminals. Instead drive a two and a half inch nail into the door post, press the door into place, and bend the nail against it. This will hold it secure, and will not interfere with the opening of the door as nails driven through it would.

7. If possible weigh your grain before loading, and keep accurate record of the weight of same.

8. Be particular to level the grain accurately in the car, and keep a record of how it compares with the load line marked in the car.

9. Wherever it is possible, shippers should draw the agent's attention to the height of the grain and the fact that it is levelled.

It is also a good precaution to keep a record of the depth in inches of the grain loaded into the car if it has been levelled properly. In case of leakage or damage in transit, this is invaluable evidence in establishing your claim for shortage.

10. Do not load cars above amount allowed, as it endangers life and property, and weakens your chance to collect for shortage in weight, in case of damage in transit.

11. If you have to partition your car, be careful to keep the partition clear of the grain doors, as they must be opened to unload the grain.

12. If you bill the car to your own order and advice, be sure to give your post office address on the bill of lading, otherwise the outturns and papers will go back to the station agent, who may be many miles from you, or if you have decided on a commission firm to handle the car for you, note on the bill of lading, advise this firm, then they will get all the documents and be in a position to look after your interests.

13 You can send the bill of lading to the commission firm, giving them instructions how you wish the car handled, or you can place it with your banker to be handed to the firm on receipt of a certain amount as an advance, and when the sale is completed, you should receive a statement showing the whole transaction and closing it up When instructions are given over the phone be sure and confirm same by wire or letter, to save dispute.

14. If you have billed the car to your own order, before sending the bill of lading to your banker or commission firm, you should endorse it as follows:—

Deliver to order (insert the name of your bank or commission firm), then sign your name distinctly.

15. I do not sell grain for farmers, but if you wish me to look after your interests in regard to grading, if you send me the car number, with the car initials, date shipped, station and railway, I am willing to give every assistance in my power to any farmer in securing a just settlement of any trouble he may have in the shipping of his grain.

There is no charge in connection with my work to any one.

D. D. CAMPBELL,
Grain Exchange,
Winnipeg.

**Three of A Kind**

Any kind of a horse will be well shod if we do the shoeing,—trotting horse, dray horse or racer, and we doubt if we charge any more than some ask for careless, even injurious work.

## Trans-Pacific Record Is to be Broken

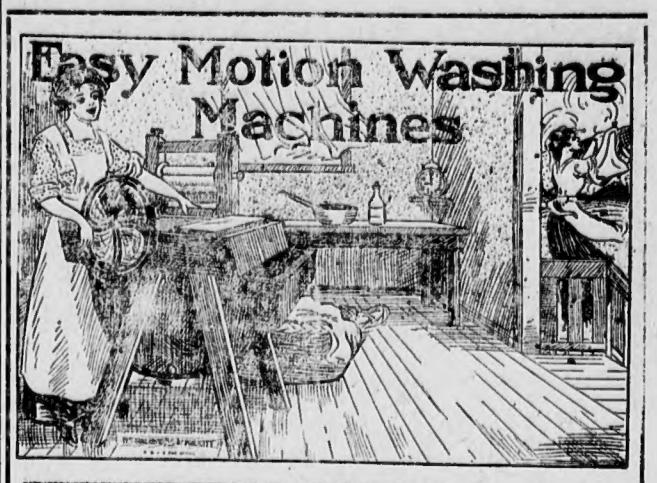

All Trans-Pacific records are expected to be broken when the Canadian Pacific Railway puts into service its two new steamships the "Empress of Russia" and the "Empress of Asia." The "Empress of Russia" was launched a couple of weeks ago at the yards of the Fairfield Shipbuilding and Engineering Company at Glasgow, Scotland, and as a result, will be the first of the two new vessels to feel the swells of the Pacific. In the meantime, while the vessel is being completed, much discussion is heard among traffic men as to just what effect the two new boats will have on Trans-Pacific shipping. Canadian Pacific officials themselves believe that the introduction of the new boats into the service between Canada and the Orient will mark a new epoch in traffic on the Pacific. Certain it is, however, that whatever other results are felt, all present records for fast voyages between Canada and Japan will be considerably lowered. The "Empress of Japan" at present has the record for the fastest voyage across the Pacific, having made the distance between Vancouver and Yokohama in 10 days, 10 hours and 4 minutes, and between Vancouver and Hong Kong in 17 days, 10 hours and 16 minutes, inclusive of stops. The "Japan" however, has only a contracted speed of 18 knots on the measured mile and 16 knots on a sea trip, while the new "Empress" steamers are designed for a speed of 20 knots per hour. This great advantage in speed will undoubtedly mean a big reduction in the duration of a Trans-Pacific voyage, and in fact, some shipping men are of the opinion that the "Empress of Russia," will cut almost 24 hours off the "Empress of Japan" Vancouver-Yokohama record.

Alfalfa from now on will have some good boosters.

## Dry Farming Congress Oct. 19 to 26

The International Dry Farming Congress opens at Lethbridge Oct. 19th. and will continue until the 26th. As all exhibits must be in place not later than Thursday morning, Oct. 17th, and all judging completed before opening of the exhibit, special tickets for exhibitors and judges will be sold from all points in Manitoba, Saskatchewan, Alberta and British Columbia, upon presentation to the local ticket agent of the secretary's certificate which will be issued upon application from the Secretary's office and which will entitle the holder to round trip ticket at the one way first class fare, starting any time on Oct. 15th to Oct 15th, inclusive, and good to return until November 2nd. Remember that the intending exhibitors and judges must secure these certificates in advance from the Secretary of the International Dry Farming Congress, Box 3060, Lethbridge, Alberta, and plenty of time should be allowed for delays in mail in both directions.

## A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill!

Then again. As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again. As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Company and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., oronto.

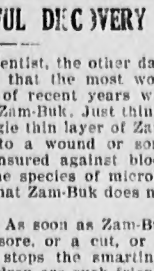

### REST AND HEALTH TO MOTHER AND CHILD.

MRS. WINSLOW'S SOOTHING SYRUP has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TRETHING, with PERFECT SUCCESS. It SOOTHES the CHILD, SOFTENS the GUMS, ALLAYS all PAIN; CURES WIND COLIC, and is the best remedy for DIARRHŒA. It is absolutely harmless. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

$2 DAY AND UP. ALSO COMMISSION for local representatives; either sex, permanent; experience unnecessary; rapid advancement; spare time accepted. Nichols, Limited, publishers, Toronto, Canada.

### Maypole Soap

DYES SO EASILY

With Maypole Soap there is no trouble and no muss in home dyeing. Dyes cotton, wool, silk or mixtures. 24 cents will give any shade. Colors 10c. Black 15c—at your dealer's or postpaid with booklet "How to Dye" from 108

F. L. BENEDICT & CO. Montreal

### Cheeky

A gentleman had been dining with his wife in a restaurant, and when his bill was brought to him, remarked to the waiter:

Waiter, one item is wrong here. We didn't have three plates of soup. We only had two.

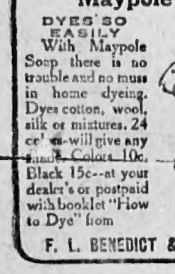

Pardon me sir, replied the knight of the napkin. You forget the plate what I spilled over the lady's dress.

During the past financial year Glasgow's tramways carried 270 million passengers and took nearly $5,000,000 in receipts.

## DANGER PERIOD OF WOMANS' LIFE FROM 45 to 50

### Interesting Experience of Two Women—Their Statements Worth Reading.

White Oak, Ont.—"At Change of Life when doctors could do no more and I was

given up by my friends, Lydia E. Pinkham's Vegetable Compound came to the front and did wonders for me. I had been having female troubles for years, my head troubled me severely at times, I had bearing down pains and backache and I was very anaemic from excessive flowing. I recommend your Compound highly and do all I can to advertise it as a genuine woman's medicine." — Mrs. SYLVESTER MANNING, White Oak, Ontario.

### The Case of Mrs. Kirlin.

Circleville, Ohio.—"I can truthfully say that I never had anything do me so much good during Change of Life as Lydia E. Pinkham's Vegetable Compound.

"Before I had taken one half a bottle of it I began to feel better, and I have continued taking it. My health is better than it has been for several years. If all women would take it they would escape untold pain and misery at this time of life."—Mrs. ALICE KIRLIN, 358 W. Mill St., Circleville, Ohio.

The Change of Life is one of the most critical periods of a woman's existence. At such times women may rely upon Lydia E. Pinkham's Vegetable Compound.

### On the Upper Orinoco

Are you aware that nearly a thousand miles of navigable inland waterways of the Upper Orinoco River in South America are entirely undisturbed by commerce, except such as may be carried in an occasional canoe or lancha? The lancha is simply a light scow or flat-bottomed boat, fitted with a single mast, from which, however, an enormous sail can be spread.

When the summer trade winds blow from the Atlantic good progress upstream is often made but for the return trip the mast and sails are stowed away, and the force of the current is depended upon, aided in the dry season by the use of poles or oars. If the westerly winds have set in, of course, it can sail back as well, and at times a little craft may be seen with sail set, tacking down stream in the teeth of an easterly wind, but this is sorry work.

More picturesque and speedier than the lancha is the 'bongo,' or large dugout, one half of which is sheltered by a wicker or palm-thatched canopy, and a sight never to be forgotten in the passing of a bishop or faithful 'padre' with his Indian boatman, making a round of parochial calls, requiring, perhaps several months' almost constant travel. The instant this craft is recognized the steamer or lancha slackens speed, and when the padre glides alongside he solemnly blesses the voyagers, then thankfully accepting such contributions as are offered him, and exchanging a courteous farewell, resumes his solitary way.

**It Will Cure a Cold.**—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Electric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

### A Trap Which Failed

Mr. J. Johnson Abraham in his book, "The Surgeon's Log," describes a peculiar adventure at Port Said.

Sounds of music were heard from a house, and as if at a signal, said Mr. Abraham, the decrepit chariot stood still, my guide got down, and suggested I should go in. I thought rapidly and then followed him. It was queer, and I wanted to know. He led the way upstairs into a large room, where several men were playing roulette. None took any notice of me, but apparently the bank was having a very bad time of it. Everybody was winning. The music from the automatic piano was deafening. I looked on silently for some time, and then made a move for the door. An oily-looking Greek intercepted me.

Won't you try your luck? he said.

No. I'm not drunk enough, I answered.

He shrugged his shoulders and I passed out. On the stairs I paused and then stole silently back. The music had ceased and all the confederates who had been playing so feverishly and winning so much had ceased also, and were preparing to resume the siesta my advent had so fruitlessly interrupted.

### How a Cross Was Won

A French reporter encountered in a little village of the South of France a gardener, who wore pinned on his clean Sunday blouse, the ribbon of the Legion of Honor. Naturally, the newspaper man desired to know how he got it. The gardener, who like many of his trade, seemed to be a silent man, was averse to meeting an old and wearisome demand, but finally he began:

Oh, I don't know how I got it! I was at Bazeilles with the rest of the battery. All the officers were killed, then down went all the non-commissioned officers. Bang! bang! bang! By and by all the soldiers were down but me. I had fired the last shot, and naturally was doing what I could to keep off the Bavarians.

Well, a general came and says he, 'Where's your officers?'

All down, says I.

Where's your gunners? says he.

All down but me, says I.

And you've been fighting here all alone? says he.

I couldn't let 'em come and get the guns, could I? I says, and then he up and put this ribbon on me, probably because there was nobody else there to put it on.

### The Judge's Explanation

The average juryman is not very well versed in the fine distinctions of the law. On those he needs instruction from the Judge. It must have been a very obtuse juryman, however, to whom the case was not perfectly clear after listening to the following explanation by a Judge in the Far West:—

Gentlemen, he stated, with admirable lucidity, murder is where a man is murderously killed. The killer in such a case is a murderer. Now, murder by poison is just as much murder as murder with a gun, pistol, or knife. It is the simple act of murdering that constitutes murder in the eye of the law. Don't let the idea of murder and manslaughter confound you. Murder is one thing; manslaughter is quite another. Consequently, if there has been a murder, and it is not manslaughter, then it must be murder. Don't let this point escape you.

Self murder has nothing to do with this case. According to Blackstone and other legal writers, one man cannot commit felo de se upon another; and this is my opinion.

Gentlemen, murder is murder. The murder of a brother is called fratricide; the murder of a father is called parricide, but that don't enter into this case. As I have said before, murder is emphatically murder.

You will consider your verdict, gentlemen, and make up your minds according to the law and the evidence not forgetting the explanation I have given you.

Nearly ten per cent of the poor relieved in Scotland are natives of England and Ireland.

Public stocks stood in the Strand, London, so late as 1826.

### Not Disturbed

Two spiders who dwelt in different parts of a church one day chanced to meet and got into deep conversation, and asked one another where they lived.

I live under the pulpit, said No. 1, and every week I always think I shall be getting killed; the parson bangs his hand down, and I have to get into the smallest corner I can find for fear of getting squashed.

Oh, said No. 2, you ought to come and live with me. I never get disturbed from one year's end to another.

Why, where do you live? asked No. 1.

I live in the poor box.

### How Did She Know

Mrs. Blinkers—What! Going? Why?

Servant—Please mum, when I cum yesterday you gave me the keys to your trunks and drawers, and chests and jewel-boxes to keep for you.

Mrs. B.—Yes, I did that to show that I could trust you. What is the matter?

Servant—Thur don't one of 'em fit.

### His Working Clothes

Ellenborough was once strangely posed by a witness a labouring brief layer, who came to be sworn.

Really, witness, said the Lord Chief Justice, when you have to appear before the court it is your bounden to be more clean and decent in your appearance.

If it comes to that, said the witness, I'm every bit as well dressed as your lordship.

What do you mean? said his lordship, angrily

Why, said the labourer, you come here in your working clothes, and I'm come in mine.

Formerly the duties of the Lord Chancellor were those of a doorkeeper, who admitted suitors into the presence of the King.

### Minard's Liniment Cures Dandruff.

All trainers, jockeys, and apprentices must take out racing licenses issued by the Jockey Club and when a foreign jockey rides in England he must obtain what is known as a temporary license.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

China possesses a coal-field with an area of 21,000 square miles.

## WORK AND WORRY WEAKEN WOMEN

### New Health and Strength Obtained by the Use of Dr. Williams' Pink Pills.

It is useless to tell a hard-working woman to take life easily and not to worry. Every woman at the head of a home; every girl in offices, shops and factories, is subject to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible and to build up her system to meet any unusual demands. Her future health depends upon it. To guard against a breakdown in health the blood must be kept rich, red and pure. Nothing can keep the blood in this condition so well as Dr. Williams' Pink Pills. They strengthen the nerves restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep their strength and keep disease away by the occasional use of Dr. Williams' Pink Pills. Or if a breakdown has come unexpectedly they can obtain new health through this same medicine. Mrs. M. Thomas, iver Street, Toronto, says: "For several years I was almost a constant invalid, unable to do my housework and spending much of my time in bed. My nerves seemed worn out and I was so run down that all my friends thought I was in a hopeless decline. I was as pale as a corpse; I was so bloodless that if I cut my finger it would not bleed; my limbs were swollen far beyond their usual size. At the least exertion my heart would palpitate violently, and I frequently had fainting spells. I was under treatment by good doctors, but it did me no good. Then one day my husband brought home some Dr. Williams' Pink Pills and I began taking them. They seemed to go to the root of the trouble, and in the course of a few weeks the improvement they were making was quite plain. Gradually as I continued taking the Pills the swelling of my limbs disappeared; the weak spells came less and less frequently; my appetite greatly improved, and finally I was completely cured and able to do my housework with ease. Later, my daughter Alma seemed to be troubled with anaemia, and we gave her the Pills with the same good results."

Why suffer in any way when you can begin curing yourself to-day with Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The largest pyramid in Egypt contains 90,000,000 cubic feet of stone.

**Pills That Have Benefited Thousands.**—Known far and near as a sure remedy in the treatment of indigestion and all derangements of the stomach, liver and kidneys, Parmelee's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

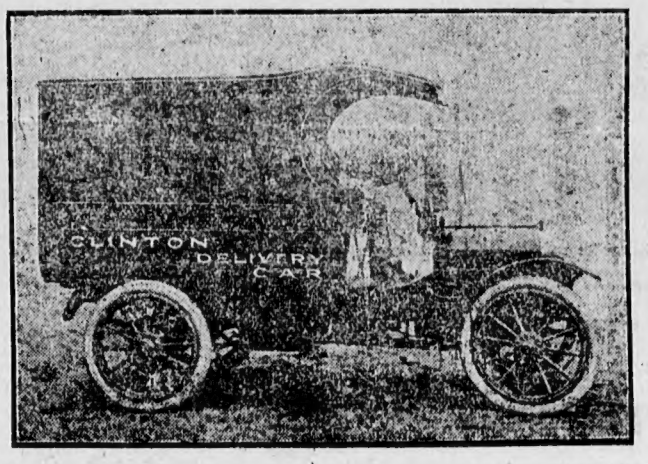

France produces upwards of 500,000 pounds' worth of oysters every year.

### Deserved to be Sacked

There is a large lumber operator in Maine who on occasion personally superintends the crews breaking up log jams in the river. Once, it appears, the spruce log on which he was standing slipped and threw him in the water under the logs.

One of the crew, a French-Canadian who had seen the accident, immediately went to the rescue and succeeded in getting the operator on land. The latter merely grunted his thanks, and nothing was said about the mishap.

After a day or so the Frenchman grew anxious, for he had thought of a great reward. Approaching the lumberman he said, I—I see you fall in, m'sieur, and I run queek, to pull you from ze watalre before you drown eh?

Yes, snapped the lumberman, you did; but if you'd been attending to business as you ought to have been you wouldn't have seen me fall in!

### Blind Obedience

You must not see him any more,
She heard her mother say,
And though she might her fate deplore
She promised to obey.
I must not see you, sir, she cried,
When he appeared that night.
Why, then, the thoughtful youth replied,
We must turn out the light.
Thus did the maid so true and sweet
To parents mandate bow.
Although as heretofore they meet
She does not see him now.

Two-thirds of the inhabitants of New South Wales belong to the Church of England.

A capstain is built into a block and tackle with which one man can haudle loads of 1,000 pounds and two men, loads of 4,000 pounds.

### Situations Vacant

The rich bachelor sighed and looked fixedly at the beautiful girl.

Things with me, he said, are at sixes and sevens. I feel the great need of a woman in my home—one who would straighten out my tangled affairs and make life worth living once again.

Her soft glance spoke her excitement and expectation.

Yes? she queried gently.

Do you know, he continued, of any good, able-bodied woman whom I could get to clean the house?

# MOVEMENT OF GRAIN

## RAILWAY OFFICIALS SAY GRAIN IS GOING OUT QUICKLY

**It is Stated that there are Plenty of Cars as yet Available, and Farmers are Delivering Grain so Promptly that there is Little Delay in Loading.**

Winnipeg.—The fine threshing weather of the past week has caused a big stir in the movement of wheat to the lakes from all parts of the west. Although now nearly three weeks behind the normal record, there is every evidence of prompt removal of the grain with very little fear of congestion, according to the railway freight staff in departments of the various railroads. There are plenty of cars in waiting and the farmers are sending their grain so promptly, both to the platform and to the elevators that there is very little delay in loading.

There has been little or nothing done in the matter of shipping a part of the crop through Duluth in order to get it to the seaboard without delay, but it is understood that during this week, when the shipping is in full swing and the estimates can be taken in the different districts as to the volume to be moved, some sort of arrangement will be made by which Duluth will handle the surplus of the eastbound grain. The farmers are working night and day at the platforms, and the break is about even with last year as to the platform loading. The elevators are pouring their golden treasures directly into the cars and the returns so far this year show that this method of disposing of the crop is as popular as ever.

On October 1 the three provinces, Manitoba, Saskatchewan and Alberta, on the C.P.R. lines, loaded 597 cars of grain.

Last year on the same day 384 cars were loaded, an increase of 213 cars.

156 of these cars were loaded by the farmers direct and last year only 56 cars were loaded from the platform in the output of the days.

It is difficult to state just which method is the more popular, as the districts and roads have to be considered in getting the grain to the nearest point of transportation.

The output of Manitoba from September first up to Oct. 1, this year was 299 cars, out of which 161 cars were loaded from the elevators.

Last year, during the same period, there were loaded 167 cars, 138 from elevators and 29 from the platform.

In Saskatchewan this year up to October first, 1,855 cars were shipped.

The figures show all the way through a bigger month for September this year than last, and although the Manitoba demand has fallen off there is a big increase from the district around Saskatoon.

Up to Oct. 1, the C.N.R. have loaded and unloaded under orders 1,161 cars at the elevators and 1,879 cars at the platform stations along their lines.

As most of this demand comes from Saskatchewan there is every reason to believe that the output from this province will far surpass the estimate of the most optimistic.

The officials in charge of the transportation of the grain on all the roads through the agricultural districts of the west are most optimistic over the ease with which the crop will be moved.

Unlike work in previous years, the threshing operations have taken place in sections. Where these operations were furthest advanced there the cars were placed in greatest numbers.

## JUDGE REFUSES TO FIGHT

**Decision of a German Court of Honor is Ignored**

Berlin.—Judge Knittel, who has been challenged by Captain Kammler to fight him, has declined the invitation without assigning any reasons.

It will be remembered that in a recent trial for libel the court decided that Judge Knittel was justified in declaring Captain Kammler a malicious imbecile, and that in consequence Captain Kammler was obliged by a military court of honor to challenge Knittel, who besides being a judge, is an officer of the reserve.

Much curiosity is felt as to the next step to be taken by the court of honor, and whether it will proceed to force Judge Knittel to sever his connection with the army on the ground that he has refused to permit himself to be shot at.

### Would Protect Eskimos

Ottawa.—Dr. Stefannson is expected in Ottawa within a few days to report to R. M. W. Brock, of the geological survery, on his discoveries in the Coronation Gulf. Dr. Stefannson is the discoverer of the Blonde Eskimos in that new region and is desirous of keeping civilized people away from them for fear that disease will be taken in and wipe them out.

Dr. Stefannson was engaged by the American Museum of Natural History and the geological survey of Canada, to make the trip. His reports promise to be exceptionally interesting and useful.

### Great Crime of West

London, Ont.— Lieut.-Col. Gartshore, general manager of the McClary Manufacturing Company, back from a trip to the Coast, criticized the booming of the Prairie real estate.

The great crime of the West is the exploitation of impossible city sites, he declared.

### Scheme Abandoned

London.—A despatch from Copenhagen says that the scheme for the enlargement of the harbor docks at St. Thomas, in the expectation that the opening of the Panama Canal would greatly increase the shipping trade, has been abandoned owing to the lack of financial support.

London.—The death has occurred at the age of 71 years of John Kettle Clarke, who has been employed at the Orwell engineering works, Ipswich, for fifty-five years, for thirty-three years of which he was foreman.

## NEW OFICE FOR FOSTER

**Suggested as Canada's Diplomatic Agent in London, England**

Ottawa —Hon. Geo. E. Foster, who is again on his way back to England, for another two months' stay there, on imperial business, may have his headquarters established there permanently. Mr. Foster is slated to fill the office of Canada's imperial minister as proposed in Premier Borden's scheme for a more direct representation of Canada in imperial affairs at London. It is understood that the suggestion has been directly made to him that he become Canada's diplomatic agent and general representative in London with a salary of $15,000 per year.

The present scheme is to extend the scope and importance of the High Commissioner's office by giving it semi-diplomatic and advisory or consultative functions in relation to the imperial government. As successor to Lord Strathcona, whose retirement may be expected next year, Sir Hugh Graham and Sir Edmund Walker have been mentioned, but, under the new proposals, Mr. Foster, by reason of his political experience and training and aptitude for the larger problem of politics has undoubtedly superior claims for the post. He would act as the medium for the exchange of confidential information on matters of state, affecting the interest of the mutual interests of Canada and Great Britain, whether in relation to trade or defence and would have in London an advisory and consultative capacity. This proposal was broached by Premier Borden in London, last July, and is part of the government's permanent policy.

As a preliminary to Canada's representation in London steps are now being completed for the purchase of a site for a magnificent Canadian office near Westminster Abbey and adjacent to the houses of parliament. Work on the new building will be begun next year. To further supplement the proposed salary of $15,000 for Mr. Foster, an official residence with allowances in the way of living expenses is suggested.

Whether or not the minister of trade and commerce will accept the position is not known. He is greatly interested in the work of his life here and likes political fighting in the commons. But it is stated on good authority, that several of his colleagues are anxious to have him take the London position and it is significant that he has been kept for the last few months well in training for it. By the end of November, this year, he will have spent four months out of this year in London and next spring as Canada's travelling ambassador he is going to Australia on trade matters.

Hon. Mr. Crothers would prefer his place as minister of trade and commerce to the labor portfolio he now holds.

### Diamonds from the Hudson's Bay Country

Cobalt, Ont.—It is expected that Walter Taberner, a well-known Northern Ontario promoter, will shortly reach here with the first lot of diamonds from the reported diamond fields bordering on Hudson's Bay. He was in the Nottawa River district last winter and went in again early last spring with a gang of men.

They remained in the country all summer and must have struck it rich from the length of time spent there.

Fargo., N.D.—Nearly 10,000 young men, students in Fargo's colleges, and high schools, will leave before the end of the week to take the place of laborers in harvest fields of North Dakota. In response to insistent demand for farm laborers throughout the state, school heads have agreed to allow all male students two weeks' vacation, and every student who is able will be urged to seek work on farms. Many members of the Fargo Commercial Club will also go to the fields.

# THE MARKET REPORT

**Weekly Grain Letter Supplied by Thompson, Sons & Co., Grain Merchants, Winnipeg.**

Winnipeg, Sept. 25.—For the third week in succession the weather over our prairie provinces and North Dakota and Minnesota has broken into a three days' spell of showers and rainstorms, putting a complete stop to farm work and threshing. A correspondent situated near the centre of the province of Saskatchewan writing to us under date the 21st inst., says: Just as every threshing machine was getting into full swing, after about five days of dry weather, it commenced to rain on Thursday evening and rained all night, and on Friday it was very wet with heavy and light showers all day, and is still at it raining lightly. Everything is soaked. If it should clear up to-day or to-morrow there will be no threshing before Friday or Saturday of next week. Evaporation not so rapid now, short days and cool. Serious check to farmers and transportation companies. The weather did clear up in the west by Sunday and in the east here by Monday. It came much colder with the clearing and brought a slight trace of snow at one or two western and northern points, as the last of the rain passed off. There have been several degrees of frost over night at some westerly points and a few late fields of wheat will have been slightly damaged, and a good deal of late oats and barley which are not cut yet; but we do not look upon the frost damage as likely to cut much figure on this year's crop. It has been so long in coming, and the great bulk of all the grains was so much better grown and matured this year. Along with the colder and clearer weather there has been some good stiff breezes blowing from the north and west, and these have done so much in drying out the stooks that several places report threshing commenced again today. This last storm drifted down into North Dakota and Minnesota and it was very wet in these states on Monday and yesterday, the rain turning to snow in the northern parts of these states. The weather forecast is now fair and cool over all the spring wheat country, and if rain will only keep away, threshing will go ahead and a heavy movement on the railways will follow at once. The weather in Alberta and western Saskatchewan has not been so seriously unfavorable as in eastern Saskatchewan and Manitoba and some headway has been made in threshing in the further west, and it has resulted in a fair increase in the number of cars passing Winnipeg In the last three days 960 cars of wheat have been inspected at Winnipeg. The high average quality of the crop is seen in the grading; as an illustration, yesterday's inspections are as follows, viz.: 3 cars 1 Hd; 217 cars 1 Nor.; 136 cars 2 Nor.; 31 cars 3 Nor.; 5 cars No. 4; 2 cars No. 6; 2 cars Feed; 31 cars No grade; 19 cars Rejected; 4 cars Red Winter, total 450 cars. The no grade cars are all of the higher grades but out of condition, tough or damp, not a large percentage considering the weather, and the anxiety of farmers and threshers to get ahead with the threshing. The 19 cars rejected are all good wheat but have too much admixture of oats, barley or ragweed, etc. The Nos. 4, 6 and Feed are old crop. In regard to the markets, the unsettled weather in America, delay in the movement of our western crop, large export demand from Europe, and very satisfactory demand for flour in all the milling centres in the United States, have all tended to keep the wheat markets firm and steady, amidst the bearish sentiment which undoubtedly prevails in the American speculative markets, and in face of very bearish statistical changes in visible stocks and moving supplies. There has been during the week very narrow fluctuations in prices, until today the outlook seemed to change somewhat and a decline of about 1c. took place in most markets from the closing prices of yesterday, but the only decided change from a week ago is a decline of 3c. in Chicago September wheat. In other markets and months the changes compared with a week ago are irregular, some being ½c. higher and others ½c. to 1c. lower. There seems little doubt that somewhat lower prices will follow should the weather in America and Europe become quite settled and remain dry and favorable for a few weeks, for in that case there would be an immense movement of wheat from first hands, for with favorable weather the movement of wheat eastward over the Canadian and United States spring wheat country would only be limited by the carrying capacity of the railways. Other influences of an easing tendency have also begun to show themselves, such as a lessened demand for export and a slackening of the flour demand in the United States, together with the development of the statistical situation. Last week the United States visible supply increased 3 453,000 bus. against an increase of only 74,000 bus. a year ago. The total U.S. visible is now 30,132,000, bus. against 51,150,000 bus. a year ago, but only four weeks ago the amount was only 18,664,000 bus. against 48,247,000 bus. corresponding date last year, and an increase of only about 3,000,000 bus. last year, whereas the increase this year is about 11,500,000 bus. The world's shipments last week were 14,688,000 bus. against 11,200,000 bus. last year and the total amount on passage is now 39,904,000 bus. against 33,642,000 last year. The European visible supply last week was 74,808,000 bus. against 82,200,000 bus. a year ago but in regard to these figures we would point out that last year the wheat crop in the United Kingdom and western Europe was good in yield, early harvested and in splendid condition so that it moved early and freely. This year conditions are nearly the reverse, for the weather from July to mid September has been disastrously wet this year, so that harvest has been protracted, a good percentage of the crop is spoiled for milling, and comparatively little of it can come to market until the frosty winds put it in condition for threshing. The reports of the growing crops in the Argentine and Australia are favorable. The acreage under wheat in the Argentine is estimated at 5 per cent. larger than last year, and in Australia about the same as last year.

Our Winnipeg market continues to experience a good demand for cash wheat, but trade is quite restricted by the delay in the movement of the new crop. It is giving exporters and others who have engaged to load at Fort William, a good deal of trouble and probably some loss, as they are not prepared with the grain to load. Several vessels have been switched to Duluth and cargoes procured for them there. Up until today comparatively high prices have been paid for wheat past Winnipeg available for immediate loading into boats, but the increased receipts of the last three days and the anticipation that the real crop movement is now about to begin, together with an easing off in export demand, has caused the prices to drop sharply today. Speculative trading in future deliveries is of small volume. To-day's closing cash prices are: 1 Nor, 90½c; 2 Nor. 88½c; 3 Nor. 86½c; Alberta Red Winter No. 1, 90½c; No. 2, 88½c; No. 3, 86½c; Futures closed October 88¾-⅞; December, 84⅞c; May, 89⅝c.

**Oats—**

The oat market is strong and higher caused by lack of supplies and continued good demand from eastern Canada for immediate delivery. Compared with U.S. prices for oats our prices are abnormally high. Owing to the long spell of unfavorable weather new oats will be very late in being threshed and the short sellers for October delivery are in a very unenviable position. To-day's cash prices are 2 Can. West. 46c; 3 C.W., 43c; Ex. 1 Feed, 44c; 1 Fd., 43c; 2 Fd., 40c. Futures closed October 39½c; December, 34½c.

**Barley—**

There is a better demand for barley and prices are 3c. up on the week. To-day's prices are No. 3, 53c; No. 4 47½c; Rejected, 43c; Feed, 43c.

**Flax—**

The flax market keeps firm with a fair demand. To-day's cash prices are No. 1 North Western Canada, 160c; No. 2 Canada Western, 154c; No. 3 Canada Western, 145c. Futures closed October, 158c; December, 154c.

All prices mentioned above are on basis delivery in store Fort William, Port Arthur and Duluth.

# THE HOME RULE BILL

## AN EARNEST PLEA IS MADE FOR FULLEST DISCUSSION

**Editor of the Manchester Guardian, Although an Ardent Home Ruler, Urges the Government to go Slow, and to be Ready to Offer any Reasonable Compromise.**

London.—There is a possibility of the rift between the Government and the Labor party widening.

Ramsay MacDonald has made the pledge that the Labor members would vote against the Government unless votes were granted to women, but it is doubtful if he could carry his party with him.

On Thursday the motion for a location of time for passing the Home Rule Bill will be considered.

The Westminster Gazette's parliamentary correspondent says it is the intention of the Government to pass this bill through the House of Commons before Christmas, and that there is no disposition on the Liberal side to criticize the drastic measures of closure necessary for putting through the debate on the bill.

On the other hand, it is significant that, in a speech at Manchester, C. P. Scott, proprietor of the Manchester Guardian which exerts the most powerful force among British Liberal newspapers, and himself an ardent Home Ruler, made an earnest plea that the Government should go slow and grant the fullest discussion of the bill and be ready to offer any reasonable compromise.

They were threatened, he said, with resistance amounting to civil war.

It was better that the bill be dropped altogether if the Government did not mean to enforce it when it became law.

## HORRORS OF CUBAN ASYLUM

**Men and Women Patients in Institution in State of Squalor**

Havana. — Dreadful conditions among the Cuban insane confined at the National Asylum at Mazorra near this city are disclosed in a report published in El Mundo.

Upwards of 2,000 men and women from all parts of the island are kept in the institution in a state of frightful squalor, and hundreds among them are nearly naked, without beds or chairs, and provided with insufficient food of the poorest quality says the report.

The condition of the women patients is declared to be even worse than that of the men.

All classes of insane people, except the most violent, are said to be herded together in foul courts.

It has long been known that conditions at the hospital were bad, but the real state of affairs was unknown.

At the beginning of the second intervention of Cuba by the United States, the place was found in a similar condition.

After reconstruction by General Wood, it was again reorganized and remodelled at great expense by Col. Greble, of the United States Army, and at the close of the period of intervention it was in all respects a model institution.

Immediately thereafter most of the costly improvements were destroyed, says the report, and the whole institution was allowed to go to complete ruin

Many startling pictures accompanied the report in the newspaper.

## RANCH INQUIRY COMMISSION

**Newly Appointed Body Will Settle Problem Between Rancher and Homesteader**

Winnipeg.—The new ranching investigation commission, instituted by the Dominion Government last month, to which Geo. S. Pope and Clarence F. Graham, of Winnipeg have been appointed commissioners, has commenced preliminary organization and will soon start to put on active work of collecting evidence and data.

The commission has been appointed for the purpose of dealing with the ancient strife between the cattle rancher and the homesteader, a question that has for many years been the most difficult that the United States government has had to deal with in the Western States, and which has proved almost as great a problem in Southern Alberta and Saskatchewan.

The commission is expected to give a definite answer to whether grazing lands can continue to be set aside for the sole use of the cattle ranchers in Alberta and Saskatchewan, to the exclusion of homesteaders and set a definite time for the extension of the grazing reserves and of existing grazing leases from the Dominion land department.

## G.T.P. INSTAL TELEPHONES

**All Dispatching Will be Done in This Way When Road is Equipped**

Winnipeg.—Telephones will soon be installed for train dispatching throughout the entire system of the Grand Trunk Pacific Railway. The start for this system was announced recently and the first section to be equipped with telephones will be that between West Fort William and Superior Junction. This is, of course, but a beginning. It will not be long till the whole main line is equipped and as soon as that is done the entire train dispatching of the service will be standardized with latest railway operating installations.

### U.S. Ships for Canadian Wheat

Port Arthur, Ont.—American steamboat owners and operators are making inquiries through their agents as to the number of cars of new wheat crop coming into Port Arthur and Fort William terminals, and it is not improbable that there will be a large number of American freighters assigned to the grain carrying traffic between now and the close of navigation.

### Birds Invade a Bedroom

London.—Thousands of migratory birds passed over Dover yesterday, flying south, and no fewer than sixteen martins were afterwards found in a bedroom of a house on the sea front, having entered by a half-open window.

## U.S. LAND LAWS

**Senator Smoot Says Bad Laws One of Reasons for Immigration to Canada**

Salt Lake.—United States Senator Smoot attacked the land laws in an address before the International Irrigation Congress.

Ever since 1906 the provision of our land laws have proven exceedingly burdensome, said the Senator. Although these laws are inadequate and work injustice, the administration of the laws is responsible largely for the burden put on the homesteaders. American settlers are emigrating by the thousands to Canada, and this proves that there is something wrong in our laws that should be rectified. The speaker declared congress had awakened to the needs of the settler and that he expected to put a stop to the exodus to Canada.

At the last session of Congress, he continued, more laws were passed liberalizing land laws than all the other congresses during the last ten years. Heretofore regulations have made it almost impossible to obtain homesteads within the forest reserves, but a law passed at the last session of Congress, I believe, will result in turning most of the twenty million acres of forest reserve lands into a agricultural homestead. National reserves should be utilized according to our present needs. I believe to conserve for unborn generations is wrong. Australia, Portugal, Persia, Guatamela, Mexico, and Canada were among the foreign nations represented at the Congress.

### Grain Growers' Guide Answers Manufacturers

Winnipeg.—The Grain Growers' Guide has issued the following statement in reply to the offer of the Canadian Manufacturers association for a conference with the farmers on closer trade relations with Great Britain. The western grain growers have repeatedly declared for an increase in the British preference and eventual free trade with the motherland. If the Canadian Manufacturers association is prepared to assist the grain growers towards this end there is no doubt but that the grain growers will be glad of the assistance of the manufacturers as they realize that the manufacturers have great influence in tariff making. Free trade with the motherland would reduce the cost of living to every Canadian and bind closer the greatest overseas dominion with Great Britain.

Every loyal Canadian will be glad to know that the manufacturers association is not opposed to lower taxes on British imports. If the manufacturers association is prepared for a conference with the producers to assist in securing free trade with Great Britain in ten years, it will be a welcome message to every western grain grower.

### Decrease in Homestead Entries

Ottawa.—Canada's remaining homestead lands in the west have begun to show evidence of depletion in regard to their availability and attractiveness for new settlers. The settlers now going in, though even more numerous than last year, are taking up in the aggregate more of the land by purchase than by homesteading. The most accessible free land districts were taken up by the rush of homesteaders during the past decade. For the first seven months of the year the number of homestead entries made in the western provinces has totalled 22,707 a decrease of 1,245 as compared with the first seven months of last year. Homestead entries in Manitoba for the seven months totalled 1,848, an increase of 309. In Saskatchewan, the entries for the seven months totalled 11,699, a increase of 1,246. In Alberta the total this year was 8,874, a decrease of 307. British Columbia homesteads taken up during the seven months totalled only 180.

### New Wireless Rates for Canada

Ottawa.—Negotiations have been proceeding between the naval service department and the telegraph companies with the result that the rates for wireless messages which were decided upon last July at the International Wireless Congress held in London, will go into effect on November 1, next, instead of July 1, 1913. It was decided at the congress that they would only be available from the date of the signing of the agreement, but this has been waived and negotiations with the telegraph companies have been so satisfactory that Canada will benefit from November 1. Among the new rate adoptions will be the sliding scale from Belle Isle to Montreal, and the 40 cent rate for a wireless between land and ship will be reduced to 25 cents a word. There will also be a general use of the cable count on ten-word messages.

### Manitoba to Mexico Road is Being Projected

Bemidji, Minn.—In a bulletin just issued by J. M. Wiley on the construction of a Canada to the sea railroad to be known as the Mexican Gulf and Manitoba, shows that the report that surveys actually are under way was correct.

Beginning at Baton Rouge the line is to come directly north striking Minnesota at Leroy, continuing to Minneapolis, then north to Princeton, Brainerd and Grand Rapids, Mallard, Alida, Bagley, Clearbrook and on to Winnipeg

It is believed that the surveying parties now at work in this stretch of the proposed line are working in harmony with the Minneapolis and St. Louis, which road it is believed will begin actual construction to the border line within the next few months.

### Queen Victoria's Diary

London.—The diary of Queen Victoria, from the age of 13 until her marriage, will be published in November by John Murray, who says:

This diary will reveal the intimate domestic side of the Queen's life when a girl.

Exceedingly interesting are the records of her conversations with Lord Melbourne, who gave the Queen her first lesson in statesmanship.

The book will also contain sketches drawn by the Queen when a girl of well known people of that time. The diary has been edited by Lord Esher.

# THE SUNDAY SCHOO

## LESSON II.—FOURTH QUARTE FOR OCT. 13, 1912

**Text of the Lesson, Mark vii, 1-13 Memory Verses, 5, 6—Golden Text Rom. xiv, 17.—Commentary Prepared by Rev D. M. Stearns.**

Taking up the incidents between the last lesson and this one we note that because they did not consider His wondrous works, such as the feeding of the thousands, they were amazed at His stilling the storm and walking on the sea. That was israel's trouble all through, and it is ours; we do not consider, or if we do it is ourselves or our circumstances or people and not Him who should occupy all our thoughts (vs. 52, Heb. iii, 1; xii, 3). In chap. vi, 53-56, what a multitude of sick folks gather unto Him, see the streets in the villages filled with them all hoping that He would pass near enough for them to touch the border of His garment; how beautiful to read that "as many as touched Him were made whole.

Then follows the great discourse on the bread of life, the bread which came down from Heaven, even Himself; and His reply to the question, "What shall we do that we might work the works of God?" In considering His reply remember that believing means receiving (John i, 12) or committing oneself unto Him (John ii, 24). I am continually helped by John vi, 57, "As the living Father hath sent Me, and I live by the Father, so he that eateth Me even he shall live by Me." Also verse 63, The words that I speak unto you, they are spirit and they are life." To many even among true believers, He and His words are still hidden manna of which they have not yet tasted the sweetness or having no spiritual appetite they loathe the heavenly food. They have life, having Him, but not abundant life

There were many in His day, as there were also in the days of the prophets and as there are in our own time, whose religion is wholly outward, simply a matter of externals, of outward forms and ceremonies—they are referred to in verse 6 of our lesson in quotation form Isaiah. Let us hear two quotations from the prophets concerning them. "This people draw near Me with their mouth and with their lips do honor me, but have removed their heart far from Me, and their fear toward Me is taught by the precept of men." "They come unto thee as the people cometh, and they sit before thee as my people, and they hear thy words but they will not do them, for with their mouth they slew much love, but their heart goeth after their covetousness" (Isa. xxix, 13; Ezek. xxxiii, 31). In addition to what our Lord said about them in this lesson He said elsewhere, "All their works they do for to be seen of men." "Ye make clean the outside of the cup and of the platter, but within are full of extortion and excess." "Ye outwardly appear righteous unto men, but within are full of hypocrisy and iniquity" (Matt. xxiii, 5, 25-28). These are the men who, in the lesson for today, find fault with Christ and His disciples for not practicing the many outward washings of their religion. There are multitudes of such formalists still who are very religious, but it is all outward, and they know not the true God, who searcheth hearts (1 Sam. xvi, 7; 1 Chron. xxviii, 9; Jer. xvii, 10; Rev. ii, 23). In II Tim. iii, 1-5, we read that the end of this age will be characterized by a form of godliness without any power, and truly it is already visible enough and tending to a greater manifestation of the same.

Inasmuch as it was foretold that it would be so, we are not surprised at it, and rejoice that He cannot fail nor be discouraged (Isa. xlii, 4), but the question may well search us. Am I real in my life, living before God rather than men and studying to show myself approved unto God (II Tim. ii, 15; II Cor. v, 9). Our Lord desires a holy people, a people meet for his use (1 Peter, 1, 15, 16; II Tim. ii, 21), but the cleansing must be inward, by His spirit and His word applying the blood (Ps. ii, 10; Rom. xii, 2; John xvii, 17; Eph. v, 25, 26). This matter of defilement by unwashed hands is briefly and decidedly disposed of by our Lord in these words, "To eat with unwashen hands defileth not a man" (Matt. xv, 20. In Matt. xv. ii, and verse 15, of our lesson we learn that what cometh out of the mouth, not that which goeth into the mouth, defileth a person, for out of the abundance of the heart the mouth speaketh, and out of the evil heart proceedeth all evil deeds and words (vs. 20-23; Matt. xii, 34).

No mere outward religion is of any eternal value, but may be of some benefit as far as this present world is concerned. The great cry of today about the uplift of the race, the Christianizing of nations, making an end of war, etc., is all from the proud, foolish heart of man, without any reference to the great Prince of Peace, who alone can bring peace. All mere human effort as well as all people who are not God's planting must be rooted up, overthrown, broken to pieces, and He who created all things by His word shall bring peace on earth by His word. He will speak peace. His word will do it, as it will also slay the wicked (Ps. lxxxv, 8; xlvi, 9; Isa. xi, 4). Only by his word and His spirit revealing Himself can He give peace to any individual, but to any one thus receiving Him He becomes peace indeed, life indeed, eternal redemption.

### Steamers Talk to Land, 2,400 Miles

Berlin.—A splendid achievement in wireless transmission has been made by the steamship Cordova of the Hamburg-American line. While en route to Central America the vessel remained for thirteen days in constant communication with the German wireless station at Norddeich. The maximum distance covered was 2,400 miles. The North German Lloyd steamer, Neckar, for Philadelphia, remained six and one-half days in unbroken communication with Norddeich the greatest at which messages were exchange being 1,820 miles.

## ROPHESIES DOWNFALL OF WEST FROM INTEMPERANCE

### ly Way to Save the Country Is to Have Mixed Farming Says Clergyman

It would seem that the jealousy f the East is unbounded against he West, and it is indeed to be re rected. All classes of stay-at omes in the East seem to posses his spirit of jealously, but we hard y expected it from the clergy and he advocates of temperance. Yet it seems from a de-patch sent t from Toronto the other day evertheless, 'we may forgive Mr amilton if he can by such methods duce more farmers to go in for ixed farming in the west. We ar that if the reverened gentleman d from 160 up to 10,000 acres in heat in the west he would not find e had six months in the year to bum" around the barrooms, and e also fear that if he looked into he conditions in the east and mpared them with the west he ould find that the western heat growers who take a few risks over the bar is not to be mpared with the eastern "mixed rmer" who, in the local option unties, takes home six bottles.

Here is the way the despatch eads:

Toronto Oct. 7 "Doing nothing ut wheat growing alone in the Canadian Northwest will never build build up a country," stated Rev. Robert M. Hamilton, field secretary of the Ontario branch of the Dominion Alliance, who has just returned from a tour of the west.

"Wheat growing occupies a farmers time for only six months of the year and the other six months he loafs," stated Mr. Hamilton. "When he has this time on his hands he finds his way to the barrooms, and learns bad habits."

He was of the opinion that the only way to save the west from intemperance was to have it a mixed farming country. It cannot go ahead along educational lines as the farms are too extensive in area and the farmers are not sufficient in number to keep up schools.

He thought the country should split up into smaller farms.

### Gleichen's Meteorological Report

The following weather report is supplied by J. W. Jowett, who is officially appointed by the Dominion Government:

| | Max. | Min. |
|---|---|---|
| Oct. 2..... | 67 | 32 |
| 3..... | 72 | 45 |
| 4..... | 49 | 37 |
| 5..... | 54 | 33 |
| 6..... | 57 | 20 |
| 7..... | 56 | 29 |
| 8..... | 34 | 36 |

Manager Miss Larkin informs the CALL that the Ladies Association has now paid off all their accounts in connection with the exhibition, but as the Agricultural Association granted them $50 they are going to make an effort to return the amount by giving a ball and basket social about Nov. 5th. Already some of plans have been discussed and eight of the ladies have offered to place in their baskets special prizes that will be of value up to $2. The ladies will surely have the support of the entire district in their efforts.

The "Rip Van Winkle" Company arrived in town yesterday evening and everything is in readiness for a magnificent production of the grand old play of "Rip Van Winkle" at the Gleichen Opera House on Saturday evening next Mr. Conklin, who was threatened with fever is recovering rapidly and patrons may rest assured that there will be no disappointment on Saturday evening. Everywhere press, pulpit and public have been lauding in their praise of this fine production of Rip and we are glad to be able to announce that it will positively be presented here on Saturday evening next. Seats now selling at the Palace Hotel, make your reservations early.

"Rip Van Winkle" will positively appear at Gleichen Opera House Saturday evening next.

AFTER TWENTY YEARS

MR. CHAS. J. CONKLIN

in the role of "Rip Van Winkle" at the Gleichen Opera House, Saturday evening next.

Mr. Kay, a Calgary piano agent, who was in town for some days the first of the week reports having made sales to several local parties, as returned to Calgary on the afternoon train of Tuesday.

On Monday the first wedding among the civic authorities of Gleichen was duly solominized in the Church of the Redeemer at Calgary by the Rev. Father Dalton. When Gleichen's popular Chief of Police John Roberts, was united with Miss Margaret Tool of Scotland, who is also quite well-known in Gleichen. The bridesmaid and groomsman were a brother and sister of the bride—Miss Mary Tool and Mr. Arthur Tool. The only Gleichenites present at the wedding were Mr. John Smith and Miss Annie Walker. After the wedding the bridle party spent a most enjoyable evening at a popular cafe in Calgary and then returned to Gleichen where Mr. and Mrs. Roberts have already a very comfortable home, although the Chief is preparing plans for a new dwelling in the east end of the town for erection early next spring. The happy couple have been the receipients of many costly and useful presents from their friends and all will join the CALL in wishing them all things good.

R. B. Hayes reports that from two acres of potatoes he has 800 bushels of the Early Rose and Royal New Yorkers varieties. Out of the number he has only about 20 bushels too small for market, which he can use to advantage by feeding them to his hogs. He also reports a big grain crop but when seen preferred to await the results of threshing.

The weather the past week was excellent for threshing until Tuesday, but on that day an Ontario blizzard set in and lasted until evening. That is we had rain, hail, sleet, snow and wind. However, yesterday Old Sol once more appeared on the scene, and if he will stay and a little chinook aids him the separators will be humming again in a few days.

Any person wanting tags to ship exhibits to the Dry Farming Congress and certificates for the railway transportation should apply to J. T. Johnston, secretary Gleichen Agricultural Association.

A REPRESENTATIVE of the
**Taube Optical Co.**
132 Eighth Avenue, E., Calgary
Will VISIT GLEICHEN every

## Circle Farm Prospering

A week ago there was a very pleasant meeting of officials and shareholders at the Circle Ranch at Queenstown, or perchance it might now be more appropriate to designate it the 'Circle Farm,' remembering that it is little more than a year since the big cattle ranch was turned into a farm, with O. G. Calquhoun as manager, although the company still is doing business under the title of the "Conrad Cattle Co."

The party journeyed from Great Falls, Mont. to their Queenstown property by automobile and comprised:

President W. G. Conrade, of Great Falls, Mont.

Vice.-Pres. W. Bole, Great Falls, Mont.

C. Conrade, banker, of Kalespel, mont.

Arthur Conrade, banker, of Great Falls, Mont.

They report having made the trip in thirty-six hours and found the crops along the route to be very good, but stated that they never beheld a crop of flax in all their travels that equaled that of the Circle. They expressed themselves as most pleased with all the work accomplished the past year by their manager, and Mr. Calquhoun has instructions to carry on the work he had planned for the next year, and to have wells drilled where needed, all the buildings painted, and have the stubble ploughed by steam outfits this fall if he can possibly let the contracts for so great a work.

The work of threshing the crop is now proceeding and the Call hopes to obtain a report of the result.

**It Has Been Proved**

That Machela, Nature's Scalp Tonic, has a record for growing hair—95 cases out of 100. It is the only remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. Removes dandruff. Prevents falling hair. Each package contains a packet of Machela Dry Shampoo Powder. Price for complete home treatment, $1.00. Sold and guaranteed by Gleichen Pharmacy. 6

### IN THE SUPREME COURT OF ALBERTA

JUDICIAL DISTRICT OF CALGARY

BETWEEN:

The Imperial Life Assurance Co., of Canada, Plaintiff

—AND—

Burchard E. Kent, et al, Defendants

TAKE NOTICE that the Imperial Life Assurance Co. of Canada, of Toronto, Ontario, has commenced an action against you claiming the sum of $1142.72 with interest thereon at the rate of 8 per cent. from the first December 1911 payment, the amount due the said Company under your covenant contained in your mortgage to the said company, of $1000, with interest at 7 per cent per annum, on the Southwest ¼ Section 12, Township 19, Range 21, West 4th M.

AND TAKE FURTHER NOTICE that the said Company claims, in default of payment of the said sum with interest, an order for sale of the above described property to satisfy the amount due the said Company under the said mortgage, and also an order foreclosing all your estate and interest in the said lands.

AND TAKE FURTHER NOTICE that by order herein of the Honorable Mr. Justice Stuart dated, 6th September, 1912, you are required to enter an appearance hereto with the Clerk of this Honorable Court at Calgary on or before the 20th Day of October 1912, and in default thereof such order may be made and proceedings taken in your absence as may be just.

Dated at Calgary, Alberta, this 4th September 1912.

McLEAN & FORD,
Solicitors for the Plaintiff

## TOWN AND DISTRICT

The antelope hunters are still returning and some with good reports others with fair and odd ones with nothing—such is life.

The Bachelors Ball promises to be even a greater success than last year, and is likely to be dated for Nov. 15.

The dance in the Opera House on Thursday evening was but fairly well attended, those present report an enjoyable time.

G. M. Thompson, president and managing editor of the Calgary News-Telegram spent Sunday in Gleichen visiting his brother-in-law W. J. McCammon.

Messrs. Wm. Pinder and J. B. Leggat, who are at the North ranch of the Pacific Cold Storage Co. spent Tuesday in town. The many friends of Mr. Pinder are glad to see him completely recovered from his severe illness.

The special services which have been held in the Methodist church by the Rev. F. G. Newton have drawn a good attendance from among our citizens. They came to a close last evening.

At Brosseau Bros. ice cream parlors, on Friday evening, October 11th, drawing in aid of St. Victor's Church funds will take place. The The prize is a splendid organ, the time 8 p. m.. and anyone desiring more tickets will have the opportunity of purchasing them at the time.

Say you read it in the CALL.

### GLEICHEN TRAIN ARRIVALS

According to the new C. P. R. Time Table the passenger trains arrive in Gleichen as follows:

West bound—No. 61 at 1.45; No. 13 at 2.05; No. 515 at 10.40; No. 3 at 15.46; No. 1 at 24.38.
